## Russians Ignoring Versailles Pact in Arranging Frontier

**Proposed That Hostilities Cease With Poland Forty-  
Eight Hours After Preliminary Peace Is Signed and  
Neutral Zone Set.**

Riga, Sept. 29.—(Associated Press)—Russian Bolshevik representatives at the Peace Conference here have submitted to Polish delegates suggestions for the boundary line between Poland and states adjoining to the east.

At some points it is some distance east of the line fixed for Poland's eastern frontier at the Versailles conference, and touches the latter line for but a short distance in the neighborhood of Brest-Litovsk. Poland would have control of the railway junction at Brest-Litovsk. Soviet delegates propose that hostilities cease within forty-eight hours after the preliminary treaty of peace is signed, and that Polish troops withdraw approximately fifteen miles westward of the demarcation line. They undertake to agree that the Russians will withdraw the same distance. This strip of territory would be a neutral zone during the final peace arrangements.

## IRISH LEAGUE

### IN CONVENTION

Self-Determination For Ire-  
land is Discussed at  
St. John, N. B.

St. John, N. B., Sept. 29.—The New Brunswick branch of the Self-Determination League of Ireland of Canada, opened its convention here last evening with 103 registered delegates in attendance. In his address of welcome, W. J. Agar, chairman, declared that the British Empire was composed of a number of sovereign States within the Empire, with varying degrees of liberty. Ireland wanted freedom, and was making her fight for that purpose.

## PLANS MADE FOR VETERANS GATHERING

Convention of Army and  
Navy Veterans Will Be  
Attended by Many

Preparations for the forthcoming Dominion Convention of the Army and Navy Veterans in Canada, to be held here on Monday, October 12, are now well in hand. The comfort and entertainment of the 250 delegates is expected taking up much of the time of Secretary H. J. Young of the Victoria unit.

Practically every city and town in Canada, from Halifax westward, will be represented, and all members of the Dominion Executive of the Association will be present. Reservations for the whole of the delegates will be made at the hotels some days in advance, and the Caledonia Hall on View Street has been secured as headquarters for the convention.

The delegates will arrive in a body on the Sunday afternoon boat from Vancouver, meeting the hundred British Columbia delegates in that city on Saturday evening, and being unofficially welcomed by a large number of the local members. Business will commence at 10.30 on Monday morning, when Dominion President W. J. Tupper, K.C., will take the chair. President Tupper is a veteran of the Riel Rebellion.

Will Tour District.  
After a business session the delegates will be taken on a motor tour around the city and district, and the first day's proceedings will close with an informal concert in the club-rooms of the Victoria Unit.

Enrolment at University.  
Vancouver, Sept. 29.—The sixth session of the University of British Columbia opened yesterday with an enrolment of 930 students, which is identical with last year's attendance. It is expected that a few more students will register.

## VANCOUVER GREETED LIBERAL CHIEFTAIN

Hon. Mackenzie King Pre-  
sented With Historic Me-  
mento in Terminal City

Welcomed By Mayor Gale  
and Citizens, Irrespec-  
tive of Party Ties

Vancouver, Sept. 29.—With the presentation of a gold-headed walking stick, made from the oaken timber from the old steamer Beaver, the first steamer to reach British Columbia from England, and mounted with gold from the mines of the Province, the Hon. W. L. Mackenzie King was greeted last night on his arrival in Vancouver. The stick was the gift of the Liberal Women's Association of Vancouver, which always treasure this stick as a symbol of the support which the ladies of Vancouver are prepared to give to the Liberal leader.

The reception to Hon. Mr. King received memories of that given in 1917 to his predecessor, Sir Wilfrid Laurier. At the pier they were greeted by a large concourse of citizens, headed by Mayor Gale and backed by the principal officers of the Liberal organization. All of the visitors expressed themselves as delighted with their reception at Victoria and their impressions of British Columbia's beauty.

At the Hotel Vancouver a great number of prominent citizens, irrespective of party leanings, came to do honor to the guest, and the Liberal leader seized the opportunity to make a plea for the inauguration of such courtesies as mark the public life of Great Britain.

Mayor Gale, in welcoming the party in his official capacity, said that such a visit was good for the visitors and good for the city.

Purpose Two-Fold.  
In his reply Hon. Mr. King said that when he decided to start his tour from the Pacific Coast, it was with the idea that he would be furthering the interests of Canada by getting first impressions of the West.

"Our purpose was two-fold," he said. "We desired, of course, to put forward the position of the Liberal party, which at this time of transition we feel that it is best to interest that all should hear. I do not say this in a party spirit. Truth is so large and many-sided that it cannot rest entirely with the Liberal party or with the Conservative party, and it must have a value even for those who may disagree in some points from us to have our position set forth."

"Whether we are to serve the country by our criticism, or whether, as we believe, we shall before long be called upon to administer the affairs of the country, we will as a result of this visit be better able to deal wisely with the affairs of the West."

"We see," added Hon. Mr. King, "the evidence of a larger patriotism in the efforts to make Canada a greater and a united Dominion, united by good-will, which is the only basis for the courtesies of political opponents which I hope will develop and attain the high standards which mark public life in the Old Land."

## Appeal Against Decision of Railway Board Heard

Ottawa, Sept. 29.—(Canadian Press)—"If this judgment is correct, it is a judgment that entitles them to take 10 per cent. dividends and in addition, from 10 to 15 millions by way of annual surplus. To the yoke of such a judgment the people will never submit. There will be a continuous fight against it."

In these words H. J. Symington, counsel for the Government of Manitoba, expressed his general objection to the recent judgment of the Railway Board increasing railway freight and passenger rates when the appeal from the judgment to the Privy Council was being argued to-day before Premier Meighen and several of his colleagues.

Mr. Hugh Blair who had previously spoken on behalf of the Wholesale Grocers' Association, vigorously supported the appeal, declaring that there was no valid reason for an increase in freight rates at the present time which would give the C.P.R. an additional revenue of one hundred million and impose a heavy burden on the consumers.

Discrimination.  
Basing his argument on the assumption that there has been discrimination against the west in the matter of railway rates, Mr. Symington declared that the west must refuse to assume an unfair burden and at the same time have its natural advantages taken away. Forty-five per cent. of the gross earnings of the west.

## Sir H. Plunkett Eager to Settle Irish Problem

London, Sept. 29.—(Canadian Associated Press.)—Sir Horace Plunkett, the advocate of Dominion Home Rule for Ireland, has re-entered the Irish controversy with an appeal to the Sinn Feiners to abandon the republican idea and accept his policy as the only solution of the Irish problem.

## Position of Democrats Relative to League Is Condemned by Taft

Winnipeg, Sept. 29.—(Canadian Press)—Condemnation of the position of the Democratic party in the United States, relative to the League of Nations, and that of its Presidential nominee, was voiced by William Howard Taft, a former President of the Republic, who is in Winnipeg to-day as a member of the Grand Trunk Arbitration Board. On the other hand Mr. Taft sees in the election of Senator Harding, Republican candidate, the opportunity of a compromise on the League controversy that will be a "great step forward toward securing the peace of nations." For that and many other reasons the former President is hoping that Senator Harding will be elected. "I am glad to say that the evidence of a most decided victory for Mr. Harding and the Republican party in this election accumulates daily," added Mr. Taft.

## EXECUTION MAY BE POSTPONED

Case of Madame Gagnon Under  
Consideration by  
Cabinet Council

Ottawa, Sept. 29.—The case of Madame Gagnon, sentenced to be executed at Quebec on Friday, again comes before the Cabinet Council to-day. Discussed at considerable length in Council yesterday, it presents many unusual difficulties. Madame Gagnon was sentenced to death in a party spirit. Truth is so large and many-sided that it cannot rest entirely with the Liberal party or with the Conservative party, and it must have a value even for those who may disagree in some points from us to have our position set forth.

## Alderman's House In Chicago Was Wrecked by Bomb

Chicago, Sept. 29.—A black powder bomb early to-day wrecked the home of Alderman John Powers, of the nineteenth ward, but no one was injured. Most of the residents of his ward are Italians.

## BALLANTYNE REPLIES TO LIBERAL LEADER ON MERCHANT MARINE

Ottawa, Sept. 29.—"I am sorry to interfere with Mr. Ballantyne's remarks," said Hon. C. C. Ballantyne, Minister of Marine and Fisheries, when shown Hon. W. L. Mackenzie King's reference in his speech at Victoria, B. C., to the Canadian Government merchant marine.

"No person of sense would credit such a statement as that," Mr. Ballantyne added.

"It is wholly false—not a contract was signed, not a dollar spent, not the authority of Parliament was first obtained."

Mr. King's reference to the merchant marine, to which Mr. Ballantyne takes exception, was reported as follows:

"Scarcely less autocratic has been the Government procedure in the expenditure of seventy millions of the people's money in the creation of a merchant marine. No other ministry would have ventured to award contracts of one-tenth or one hundredth of this sum without in the first instance coming to Parliament for authority to do so."

Coal Situation In  
West Satisfactory  
Declares CARVELL

Winnipeg, Sept. 29.—(Canadian Press)—Unless something unforeseen occurs, such as a strike, the coal situation in Western Canada is satisfactory. That statement was made by F. B. Carvell, chairman of the Board of Railway Commissioners at the conclusion of a Conference of provincial government and railroad officials held at Winnipeg to-day. The conference figures were produced showing the railways are well supplied and sufficient cars were available to handle the output at the mines.

## LANDLORDS REFUSING TO HOUSE CHILDREN MAY BE PENALIZED

Toronto, Sept. 29.—Hon. Walter Rollo, Minister of Labor for Ontario, in an interview here yesterday, said that any request that it be made a criminal offence for landlords to refuse dwellings and apartments to people with children would meet with sympathetic support from the Provincial Government.

## CONDEMNNS ATTITUDE OF DEMOCRATS TO LEAGUE; W. H. TAFT

Winnipeg, Sept. 29.—(Canadian Press)—Condemnation of the position of the Democratic party in the United States, relative to the League of Nations, and that of its Presidential nominee, was voiced by William Howard Taft, a former President of the Republic, who is in Winnipeg to-day as a member of the Grand Trunk Arbitration Board. On the other hand Mr. Taft sees in the election of Senator Harding, Republican candidate, the opportunity of a compromise on the League controversy that will be a "great step forward toward securing the peace of nations." For that and many other reasons the former President is hoping that Senator Harding will be elected. "I am glad to say that the evidence of a most decided victory for Mr. Harding and the Republican party in this election accumulates daily," added Mr. Taft.

## DREDGE FURTHER ON BRIDGE SITE

Railway Commission Has Al-  
lowed Calling of Sub-  
structure Tenders

Further dredging operations on the site of the new Johnson Street Bridge will proceed immediately, Mayor Porter announced this morning, following a receipt of telegraphic advice from City Engineer F. M. Preston yesterday afternoon. Mr. Preston informs the Mayor in his telegram that the Board of Railway Commissioners has decided to permit the calling of tenders for the construction of the substructure of the bridge.

Mr. Preston's announcement that the Railway Commission has allowed the calling of tenders for the installation of the bridge substructure means that he has been successful in his mission to the East. A few days ago he was able to secure approval of the bridge plans by Canadian Pacific Railway tenders and yesterday he held the plans before the Railway Commission Engineer. While he makes no mention of the fact in his wire, it is understood that Mr. Preston will not secure the Commission's formal approval until the Commissioners sit here October 11. Meantime, however, he has secured the necessary approval of the bridge plans.

The Federal Marine Department now must approve of the bridge plans, but little difficulty is anticipated in this quarter. It is understood, however, that the Marine Department desires, before approving the plans, the assurance of the Department of Public Works that the channel under the new bridge will be deepened to the required depth.

Though the situation of the Marine Department is regarded as a formal and departmental matter, the Mayor will ask Hon. S. F. Tolmie, Minister of Agriculture, to take the question up with the Minister of Public Works.

As requested in Mr. Preston's wire, the Mayor has instructed bridge experts who have been engaged for some time by the City of Victoria to proceed with the dredging required on the bridge site. No action looking to the calling of tenders, however, will be taken until Mr. Preston is back in the city.

If tenders are called early in October the prospects are that work on the bridge will commence early in December. It is planned to give contractors more than the usual thirty days to frame tenders for the installation of the sub-structure, the Mayor stated to-day. Just how many things have arisen in the past to delay the project that it is most unwise to prophesy the exact date on which construction will start, the Mayor remarked.

Following the receipt of Mr. Preston's telegram, city employees commenced to-day to get ready the bridge specifications for contractors.

## NEW ELECTION ACT WORKED NICELY AT ST. JOHN RECENTLY

Ottawa, Sept. 29.—Despite the many changes in the Election Act last session, there was little confusion among the returning officers and other officials in the St. John by-election, held recently, according to Hon. R. W. Wignmore, Minister of Customs and Inland Revenue, who returned from St. John yesterday. Mr. Wignmore stated to the Canadian Press that the new Act had worked out very satisfactorily in St. John, the only complaint heard being from those officials and other election workers who had to open the city polls at six o'clock in the morning.

## CANTON CAPTURED BY CONSTITUTIONALISTS

London, Sept. 29.—Canton, one of the most important cities in Southern China, has been captured by Chinese troops under General Chen Chung Min, according to a Reuters telegram from Shanghai.

The correspondent says he had been unable to confirm the report.

## Expected to Have Bearing on Restoration of Peace in China

San Francisco, Sept. 29.—Recapture of Canton by forces under General Chen Chung Min means its restoration to the constitutional party of Wu Tingfang and Sun Yat Sen, according to advices received here to-day by the Chinese World and the Chung Shai Yat Po, Chinese newspapers here. The southern city, cradle of the Chinese republic, has for four years been under control of the Southern China military party, who split from the constitutional party. The rule by arbitrary power of the militarists of the Southern party, according to the local Chinese newspapers, caused Wu Tingfang and Sun Yat Sen, the progressive leaders of Chinese democracy, to quit Canton and make their headquarters in Shanghai.

## HON. F. B. MCCURDY IS RETURNING TO OTTAWA

Ottawa, Sept. 29.—(Canadian Press)—Hon. F. B. McCurdy, Minister of Public Works, is expected to return to Ottawa about the end of this week. Mr. McCurdy has been in Colchester County since the opening of his election campaign there.

## GERMANY SENDS RADIO MESSAGE TO ARGENTINE

Buenos Ayres, Sept. 29.—Wireless communication between this city and Nauen, Germany, was inaugurated to-day with the transmission of a message from Nauen saluting President Trigo.

## ITALIAN TROOPS DRIVE PEASANTS FROM ESTATES OF KING

London, Sept. 29.—Members of agricultural societies who occupied property owned by King Victor Emmanuel of Italy, near Naples, have been driven out by troops. Several peasants were wounded in the fighting, says a Rome dispatch to the Exchange Telegraph Company.

## Freedom of World Trade Advocated at Brussels

Brussels, Sept. 29.—Freedom of world trade is the most essential condition for the increase of production which must bring about economic restoration of the world, in the opinion of Kogo Mori, Japanese commissioner in London, whose views have been laid before the International Financial Conference in session here. This involves complete elimination of restrictions on both imports and exports, especially those applying to raw materials, he says.

During yesterday's session Herr Bergmann, representing Germany, summarized the official statement from Berlin which has been laid before the Conference. He expressed the thanks of his Government to the League of Nations for having extended an invitation to be expressed at the Conference, and concluded by saying:

"In spite of the present difficult decision we do not outside the financial prospects of Germany desperate. The people there are gradually finding their way back to order and willingness to work is reviving everywhere in the country. Europe need expect no further help."

## Rumors in London of Various Plots in Form of Reprisals

Sensational Reports Negated By Investigations of  
Police and Press; Lancer Regiment Linked With  
Mallow Disorders; Funerals at Belfast.

London, Sept. 29.—Rumors of widespread plots which have ranged from conspiracies to assassinate King George to blowing up public buildings have been current in London during the past few days. These reports have been caused by fear that lives of public men in Great Britain might be jeopardized should any Irish hunger strikers die, particularly now "that the black and tan" police have made reprisals in several Irish towns.

Police authorities have investigated some of the more plausible stories and newspapers have run down many more, and always with the same negative result. Some of the more timid profess to see the frustration of a plot in the arrest of a man giving an Irish name, who had in his room four service rifles and a quantity of Irish self-determination literature. He is awaiting trial on a charge of unlawful possession of firearms.

## STAMP SYSTEM TO COLLECT LUXURY TAX

Minister of Customs Pro-  
poses to Make Tour to  
Explain Tax

Ottawa, Sept. 29.—(Canadian Press)—In order to remove many of the misapprehensions existing in regard to the luxury taxes, Hon. H. W. Wignmore, Minister of Customs and Inland Revenue, with the two deputy heads of his joint department, is planning a tour of several towns and cities. It is expected that a trip through the Eastern Provinces will be a great success in clearing up the difficulties to the authorities and have the merchants explain their own difficulties to the authorities and away the misunderstandings cleared away. In this way it is hoped to secure a greater understanding of the situation from the merchants throughout the country and thus bring in greater returns from the new taxes.

The stamp system of collecting the taxes will, it is expected, be inaugurated on November 1. Merchants will then attach stamps for the amount of the luxury tax to the goods sold. Details of the method of affixing and cancelling stamps used for the purpose have been worked out and it is hoped to have a plentiful supply of stamps of different denominations available to the dealers in plenty of time for the new system on the above date.

The stamps will be sold through the banks in most cities, but in some of the larger centres such as Montreal and Toronto it is likely that an office will be opened by the Department where the sales of these stamps will be taken care of. This stamp method is expected to provide a much easier means of checking rates and also to bring in the returns from the luxury taxes much more quickly than under the present system.

## RUSSIAN RADICAL IS DEPORTED FROM STATES TO CANADA

Spokane, Sept. 29.—Nicholas Steczyka, a native of Russia and a naturalized Canadian citizen, was deported to Canada yesterday after he had been charged with advocating the overthrow of the Government of the United States by force. Steczyka, who was arrested at Wallace, Idaho, on a charge of criminal syndicalism, is declared to have admitted to Federal officers his membership in the Industrial Workers of the World.

## CIVIC TAX RECEIPTS.

Vancouver, Sept. 29.—Civic tax receipts yesterday showed the total paid into the city treasury so far this year to over \$3,000,000.

## CONDUCTING SERIES OF TEST FLIGHTS

Major McLaurin Experiment-  
ing With Curtiss Plane  
at Vancouver

Vancouver, Sept. 29.—Major C. McLaurin, superintendent of the Jericho Seaplane Station, of the Air Board, is carrying on a series of test flights with the Curtiss H-8-2-L plane which is already equipped. Major McLaurin plans to do several important flights using Vancouver as a base for operations, but will not do so until he has thoroughly tested out the machine. This applies specially to the Curtiss engine, which is new to most Canadian and British mechanics, and whose characteristics have to be learned by experience.

Major McLaurin has announced that all flying from his station will be carried out in the most efficient manner, all unnecessary risks being eliminated by strict observance of Air Board rules.

## EXAMPLE FOLLOWED.

Gloucester, N.S., Sept. 29.—The "Fort Morien" local, following the example of the other locals, has rejected the award of the Royal Commission which recently investigated wage and living conditions in the mines.

## VICTORIA DRAMATIC SOCIETY WILL AID HOSPITAL AT DUNCAN

Duncan, Sept. 28.—Lionel Legge Willis and Capt. Turnbull have been in Duncan arranging for a performance of "Charley's Aunt" by the Victoria Amateur Dramatic Society on October 7, at the Opera House. They have seen Mr. Carr Hilton, secretary of the King's Daughters' Hospital, and have arranged for 75 per cent. of the net proceeds to go to the hospital. The King's Daughters are backing the effort and they very much hope that it will be well supported. Tickets can be obtained from V. C. Scholey at the Opera House.

There will be a dance in the Opera House after the performance of "Charley's Aunt" on October 7, when Mrs. H. C. Martin's full orchestra will play. Mrs. Martin and Mr. Condy have consented to play between acts.

Red Cross Society. There was a meeting of the Red Cross Society on September 27, but as it requires fifteen for a quorum and the requisite number did not turn up, the business was postponed until October, when another meeting will be called. The chief object of the society now in this district, is the establishment of the new Health Centre and raising funds.

## MANITOBA'S CROP AREA.

Winnipeg, Sept. 29.—Manitoba's total crop area for 1920 slightly exceeds 6,000,000 acres, but falls short of last year's figures by 200,000 acres, according to official estimates given out by the Provincial Department of Agriculture. Despite the decrease, however, the crop is expected to yield a record financial return to farmers. The total estimated wheat acreage is

2,705,622 acres, as against 2,880,301 acres in 1919. Oats acreage increased 25,467, with a total acreage of 1,873,354. Barley and rye show a decrease, while flax shows a notable increase, there being 32,000 acres more sown this year than last.

Chicago, Sept. 29.—A large middle-western manufacturer of men's collars yesterday announced a 12½ per cent. price reduction.

CANADIAN  
SHOES FOR  
CANADIAN  
PEOPLE

22,000 Canadian Men and Women  
ask you to buy "Made-in-Canada" Shoes

22,000 CANADIANS are engaged exclusively in the manufacture of Boots and Shoes.

The industry provides them with over \$20,000,000 a year to spend within the Dominion.

They buy food and clothing; pay rent and taxes—they help swell the total of Canadian trade.

ALLIED with these 22,000 men and women are many thousands of other workers who contribute to the making of Boots and Shoes. These include textile operatives; wire, nail and metal workers; machine manufacturers; box and carton makers; coal miners and dealers; railway men and shippers; printers; packers and battalions of clerks.

All these, and more, participate in the \$50 million dollars which is the yearly value of the Canadian-Made Shoes.

EVERY pair of Canadian-made Shoes you buy actually puts money in the pay envelope of this vast army of men and women.

Every pair of imported Shoes you buy reduces Canada's capital stock and puts money in the pockets of foreigners who contribute nothing to our national growth.

CANADIAN-made Shoes, grade for grade, are the equal of the best in the world.

The most scientific processes of manufacture are employed.

Canadian workmen are as conscientious and skilled as those of any other country.

SITUATED as we are between the Old World and the New, every authoritative idea of shape and style and fashion is immediately seized and developed.

The price of Canadian-made Shoes is based entirely on actual production costs. It represents 100% of value.

Canada produces footwear of every desirable type, and of standard quality in all grades. When you buy Made in Canada Footwear you are assured, at fair prices always, of the utmost that modern skill can produce in Comfort, Service and Style.

SHOE MANUFACTURERS  
ASSOCIATION OF CANADA

## PRESIDENT WILSON ON IRISH QUESTION

Replies to Queries Concerning Provisions of League Covenant

Washington, Sept. 29.—The first public document in the present Presidential campaign to be issued at the White House was made public yesterday. It dealt with the League of Nations and was in the form of a letter to E. M. Swartz, of Los Angeles, written by Secretary Tamm, at President Wilson's direction.

The White House letter was in reply to one to the President in which Mr. Swartz declared the forces supporting the Republican ticket, were contending that if Article 10 of the League Covenant was ratified, the United States, "would be bound to support England in holding Ireland under subjection."

The letter to Mr. Swartz follows: "In reply to your letter of the 29th September, I beg to say that the identical questions contained in your letter, with reference to Article 10, and the idea of self-determination found in the Covenant of the League of Nations, were placed before the President while he was on his Western trip last year, and fully answered by him. The President directs me to call your attention to the following questions and answers given by him to the press at that time, which I think satisfactorily answers your inquiry. The questions and answers are as follows:

"Q. Under the Covenant does the nation obligate itself to assist any member of the League in putting down a rebellion of its subjects or conquered peoples?"

"A. It does not.

"Q. Under the Covenant can this nation independently recognize a Government whose people seek to achieve or have achieved their independence from a member of the League?"

"A. The independent action of the Government of the United States in a matter of this kind is in no way limited or affected by the Covenant of the League of Nations.

"Q. Under the Covenant are those subject nations or peoples only that are mentioned in the Peace Treaty entitled to the right of self-determination, or does the League possess the right to accord a similar privilege to other subject nations or peoples?"

"A. It was not possible for the peace conference to act with regard to the self-determination of any territories except those which had belonged to the defeated empires, but the Covenant of League of Nations, it has set for the first time in Article 10, a forum to which all claims of self-determination which were likely to disturb the peace of the world or the good understanding between nations upon which the peace of the world depends, can be brought.

"Q. Why was the case of Ireland not heard at the Peace Conference, and what is your opinion on the subject of self-determination of Ireland?"

"A. The case of Ireland was not

heard at the Peace Conference because the Peace Conference had no jurisdiction over any territory that was not a subject of the peace. The subject of self-determination for Ireland is expressed in Article 10 of the Covenant, in which I may say, I was particularly interested, because it seemed to me necessary for that a 'Member' should be a state in which all peoples could bring any matter which was likely to affect the peace and freedom of the world."

## BRITISH OFFICER FIGHTS EXTRADITION IN UNITED STATES

New Orleans, La., Sept. 29.—Lieut. Colonel Charles Glen Collins, former British army officer, must wait until November 10 before learning whether he will have to be returned to Bombay, India, to stand trial on the charge of "cheating" a firm of native jewelers in connection with his alleged possession of a pearl necklace valued at 25,000 rupees. The continuance was ordered in Federal Court today when Collins appeared to oppose extradition by the British Government. He was arrested here two years ago at the request of British authorities and since that time has been held at the House of Detention, fighting extradition. He was wounded during the world war and later was sent by a British firm on a business trip to India.

## FURTHER CANDIDATES IN NEW BRUNSWICK

St. John, N. B., Sept. 29.—The following candidates for the elections in New Brunswick were chosen today:

Unbury County—United Farmers: James Harding and H. H. Smith. York County—United Farmers: Douglas Clarkson, Ernest Stairs and W. B. Gilman. There will be a three-cornered fight in this county.

Victoria County—United Farmers: George W. Narneck and D. W. Pickett. Westmoreland County—Farmer-Labor: Frank Riley, of Melrose. A. C. Fawcett, of Sackville; Mathias Arsenault, of Shediac, and H. H. Stearns.

Moncton City—Conservatives named George B. Willett.

## LADYSMITH NOTES.

Ladysmith, Sept. 29.—Capt. Carey, of Royston, B.C., was a weekend visitor of Dr. and Mrs. Montgomery. A. Whit drive will be held by the Ladies' Order of A. O. F. in the K. of P. Hall, October 13.

On Saturday night an automobile owned by Mr. Laird, of this city, was badly smashed up when the steering arm broke and the car left the road. None of the occupants were injured.

The United States Government ship Saturn is in port taking on coal for St. George and St. Paul. It is leaving here Friday morning for the Alaskan ports. This is the last ship that will take coal north from here this year.

Mr. Maynard, manager of the Silver Spring Brewing Co. Victoria, was in the city during the week-end on business.

Donald Nicholson, of this city, has returned home from a business trip to Vancouver.

Mrs. Leeming and daughter have left for Victoria.

Mrs. J. G. Reid and her two sons have left on a visit to her old home in New Westminster.

Mr. and Mrs. Alex. Campbell have returned home after spending a week's vacation in Vancouver.

The Royal Bank of Canada, through the local manager, Mr. Johnston, has purchased the lot on the corner of First Avenue and Gatacre Street. In the near future it is their intention to erect a building.

The Ladysmith football team will meet Nanaimo United football team in a league game in Nanaimo on Sunday, October 3.

The Ladysmith silver band will hold a dance in the Band Hall, October 1.

## How to Make Your Hair Beautiful

Ten Minutes' Home Treatment Works Wonders.

Better than all the so-called "hair tonics" in the world is a simple old-fashioned home recipe consisting of plain Bay Rum, Lavona (de Compose) and a little Menthol Crystals. These three mixed at home in a few minutes work wonders with any scalp. Try it just one night and see. Get from your druggist 2 oz. Lavona, 6 oz. Bay Rum and ½ drachm Menthol Crystals. Dissolve the crystals in the Bay Rum and pour in 6 oz. bottle. Then add the Lavona, shake well and let it stand for an hour before using. Apply it by putting a little of the mixture on a soft cloth. Draw this cloth slowly through the hair, taking just one small strand at a time. This cleanses the hair and scalp of dirt, dust and excessive oil and makes the hair delightfully soft, lustrous and fluffy. Stop the hair from falling and to make it grow again rub the lotion briskly into the scalp with the finger tips or a medium stiff brush. Apply night and morning. A few days' use and you should not find a single loose or straggling hair. Dandruff should quickly disappear. You should find fine downy new hairs sprouting up all over your scalp and this new hair growing with wonderful rapidity. Any druggist can sell you the above. The prescription is inexpensive and we believe is not only so effective and certain in its results.

## LETTERS

Letters addressed to the Editor and intended for publication must be short and to the point. They must be signed and the shorter the chance of insertion. All letters must be written on one side of the paper. The Editor reserves the right to edit and to delete any portion of a letter. No responsibility is assumed by the paper for letters submitted to the Editor.

## "WHO ARE THEY?"

To the Editor:—The sweeping and unsupported statements of Mr. Hastings, in recent letters to the press, against Prohibition in general, and prohibitionists in particular, have provided considerably amusement. However, there is a limit even to first-class comedy.

For instance, in your issue of the 27th inst., he informs us "that the claims of Germany were exactly the same as those of the prohibitionists." That we are "self-righteous pharisees" or again we are "self-constituted grandmothers" we will have none of the German methods. "They stole our liberty by a trick."

Who are these people Mr. Hastings thus describes, and what have they done? They are the majority of the free electors of this Province, who in 1916, decided by their vote to prohibit the sale of liquor for beverage purposes in this Province. Canada, has to-day endorsed Prohibition. Who is this Mr. Hastings, this lover of British liberty, that he should describe in the great majority of people in this Dominion as followers of "German methods, grandmothers, and self-righteous pharisees?"

But Mr. Hastings says "They stole our liberty by a trick." So we are thieves as well as Germans. But since he insists on recalling the vote of 1916, perhaps he will tell the public what he thinks of the methods employed by the opponents of Prohibition when they attempted to steal the honest verdict of the people by tampering with the overseas vote? When they polled at least 4,679 fraudulent votes, to say nothing of outraging the memory of 58 British Columbia's dead heroes, by voting in their names after being reported dead?

Mr. Hastings suggests that "we should live and let live." Just so. That is why I am going to vote for Prohibition. I want to see the liquor traffic destroyed—the homes, the happiness, and lives of men. Some of us have children growing up, we know what this traffic has done, we know what it might do to our own children and to the children of others. Because of that, we will forfeit our liberty to drink liquor, in order that our children may inherit a sober world. We will keep our Government out of this business, in order that our children may not be shareholders in iniquity.

There is nothing to be gained in this campaign by anyone on any one side. We are all a liberty-loving people, we have perhaps as much "red blood" in our veins as Mr. Hastings has. The issue is clear. Mr. Hastings has the right to vote on it as his conscience dictates. The present Prohibition Act, and forward to rest Prohibition or Government sale, and back to the booze. I for one vote we move forward.

461 McPherson Ave., Victoria, B.C.

## LABOR AND BOOZE.

To the Editor:—Dr. Hall quotes a number of leaders who are in favor of Prohibition and insists that he has given a staggering blow to the opponents of the present Prohibition Act. I think if the doctor could get the opinion of those same leaders now, with the experience they have had since the present Prohibition Act went into force, he would get a very different answer indeed.

Anyhow, to quote labor leaders, in my opinion is no argument, labor leaders are sometimes like doctors—biscuited. Is it not very strange, that all this propaganda of Prohibition is buried at the workman's feet? Is it not a fact that the present Prohibition Act is the only one penalized? I do not wish to speak authoritatively, but I believe that would be impossible, but I do know that the moderate drinking workman is being penalized by the present Act because he is too poor to send away for an order. The advocates of Prohibition, it seems to me, and some of the labor leaders, take the stand that labor has to be protected against itself and the ground for this assumption is centuries old, viz. "That man was born in original sin," and by the number of preachers there are preaching to him, one would think that he (the worker) had a double dose of it.

What the doctor has quoted a number of labor men in favor of Prohibition. It will not be amiss for me to quote a few physicians whose names carry great weight in Great Britain.

Samuel Wilks, M.D., F.R.C.P., F.R.C., says: "I believe in a very real and a very serious nervous system and by degenerating wear and tear actually supports the frame."

James Risson Bennett, M.D., B.C.P., L.D., F.R.S., says, "Has alcohol any special advantage over articles of diet in restoring exhausted nervous power, or repairing the waste attendant on its exercise? I believe it has, and that where one man may lose a few raisins answer the purpose there are more whose experience has told them that three or four brandied cherries are better."

Dr. T. Laude Brunton, M.D., F.R.C.P., F.R.S., says, "That for every medical man of distinction who is in favor of abstinence I would find 20 who would be against it," and further, "If a man is observant of himself and is temperate in all things he is a better judge of what agrees with him under ordinary circumstances than any physician can be."

Again, we must remember that in all the hospitals in Great Britain, at least, where all the leading medical men gain their knowledge they prescribe and administer alcohol for the benefit of their patients and if I am not mistaken it is the last resource they have at their command.

I want to say that I am still open to conviction. So far, however, as my experience and observation have gone, I am forced to the conclusion that, taken in moderation, alcoholic drink is not harmful, but could be said with truth with all food and drink. If our prohibitionist friends would like to convert me, and those who think with me to their view, they will have to advance stronger arguments than have appeared up to now.

TOM DOOLEY.

## CRUSHED TO DEATH.

Chatham, Ont., Sept. 29.—Wesley Merrill Johnston, 14-months-old son of Mr. and Mrs. Merrill Johnston, was crushed to death yesterday under a heavy oil tank motor truck driven by his grandfather.

Sandy McNab took a sixpenny ticket in a raffle for a pony and trap. He won it. Was he pleased at his good fortune? Not a bit.

When the pony and trap were brought to him, he surveyed them gloomily, and said:

"I tell ye the whole thing was a swindle."

"What's the matter?" asked his friends.

"Where's the whip?" demanded Sandy.

**COMBINATION WANTED.**  
If it is profitable to advertise when commercial and industrial conditions are at a low ebb it should be equally profitable to take advantage of prosperity. Victoria always is climatically affluent and no opportunity is lost to make the fact known to the rest of the world. The accrued benefits of that type of publicity are reflected in the increasing number of tourists who come to Victoria because it has so much to offer to those on holiday bent. Why should it be oversteering the case to say that this community has just as much promise for the manufacturer as for the man who comes here for rest and pleasure? And what better time than the present, when an important programme of public works is about to be commenced, could be selected to employ an invitation to commerce of similar warmth and dependability to that used by the local Development Association in the case of the tourist?

Victorians may as well face the knowledge that divided opinion upon this particular subject has dampened the ardor of those who realize that the capital city of British Columbia has just as much opportunity to utilize her natural advantages and reap the double benefits of tourist traffic and commercial expansion as, for instance, the city of Los Angeles. It would appear, therefore, that the shortest cut to a more comprehensive plan for community effort would be the amalgamation of the Board of Trade with the Victoria and Island Development Association for this specific dual appeal. Additional support could be lent by delegates from every progressive body in the city and the composite whole—without disturbing the identity of any organization—might well be styled an Industrial and Tourist Council.

**INTER-EMPIRE TRADE.**  
According to the Hon. Gideon Murray, M. P., a former administrator of the Islands of St. Vincent and St. Lucia, the Dominion of Canada will be subjected to a state of suzerainty by the United States unless the British manufacturer seizes his opportunity for trade with this country. He declares there is a feeling here, as well as in other parts of the Empire, that the overseas Dominions are being driven into the arms of America and Japan, and that Canada's fear lest she should become dependent upon her big neighbor is very real indeed.

Mr. Murray's somewhat doleful picture loses some of its point—although there is more in what he says than appears at first sight—when compared with the figures quoted by Sir Harry Drayton at the Board of Trade luncheon recently. The Minister of Finance relied upon the tremendous increase of British exports to this country during the last twelve months to confirm his statement that John Bull was rapidly putting his commercial house in order. Taking Canada's imports from Britain month by month from February last year there has been an increase ranging from three hundred to five hundred per cent. And with better running machinery for developing inter-Empire trade conditions will improve.

**THE RIGHT ADVICE.**  
While waiting for Lord Burnham's report on the question of soldier-settlement in the British overseas Dominions The Morning Post advises all ex-service men, who are contemplating emigration to formulate their own proposals and put them into effect. That newspaper takes hold of the question in its own peculiar fashion and tells the men plainly that there is

and see what relief it brings. \$1.25 a bottle. At most druggists or sent postpaid by W. F. Young, Inc., Lyman Building, Montreal.

they sit on the steps at Downing Street and expect the butler to serve them with light refreshments. The argument has a good deal of merit. The average settler from the British Isles who has come to Canada upon his own initiative has done well, and there is no reason why the various ex-service men's organizations in this country should not take counsel with their former comrades of the battlefield and assist them to devise their own emigration plans. All that is required is a little co-operation; the less the men deal with Governments in matters of this kind the better they will succeed.

**WATER WILL DO IT.**

Expert knowledge is not necessary to understand and appreciate the agricultural possibilities of many sections of the dry belt if a continuous supply of water is guaranteed. The Kamloops and Okanagan regions are prolific in examples of the manner in which arid sage brush stretches have been converted into heavy producers. But irrigation systems are costly undertakings and the history of British Columbia in this regard is none too pleasant.

These unsatisfactory conditions, however, have been remedied under the Government's policy of protection for the actual water user, rather than by the unintelligent nursing of the speculating provider whose chief object in days gone by was to assume an obligation to supply water as the bait to the unwary purchaser who paid a heavy price for his land in any case, and whose venture became a heavy liability as soon as his water supply failed.

Largely upon a realization of what water will do to the lands of the dry and semi-dry areas of the Province the Minister of Lands advocated the acquisition by the Government of the Osoyoos tract of more than twenty thousands acres which will eventually possess one of the finest irrigation systems in the country.

There can be no doubt about the success of the enterprise and we venture to point out to the Government that the adoption of a more generous policy of this character in the dry belt areas would be approved by the people because the initial cost and subsequent maintenance and operation would be balanced in a very few years by the tremendous increase in production. And when British Columbia can proclaim herself independent of imported foodstuffs she will also be the repository of great industrial promise.

**HOPEFUL SIGNS.**

Popular opinion in Great Britain appears to have signified its approval of the Government's firm yet conciliatory treatment of the miners' dispute. Contrary to expectations the Prime Minister's proposal to reopen negotiations to establish what may be termed a new wage scale on the basis of increased production induced the miners to postpone their down-tools threat for one week. And if it is possible for employer and employee to come to terms upon this essentially fundamental basis in this particular instance there should be equal prospect of a more stable understanding between capital and labor in a wider sense. In any case the fact remains that the shortest route to a more rapid expansion of Britain's industry, in keeping with the national demand for more revenue with which to discharge the nation's vast liabilities, will be found principally in the creation of a more harmonious relationship between employer and employee. Only in this manner is it possible to defeat the pogroms of the revolutionary element and protect the economic structure against new fangled and spurious theories.

**NOTE AND COMMENT**

We wonder who will write the report of the findings of Oswald Garrison Villard's Committee of one hundred—William Randolph Hearst or Jane Addams?

Premier Meighen has decided to take a very large hand in the Yale by-election campaign which is now in full swing. He will require all his eloquence to return the hyphenated candi-

and many qualities for Mr. McKelvie's opponent has the support of the farmers and the veterans of the riding—two lively factors in the political life of the country at the present time.

Great Britain has concurred in the secret of the Franco-Belgium treaty and sees no reason why its contents should be disclosed to the League of Nations. Apparently the British Cabinet recognizes the expediency of special measures for the protection of France and Belgium. But what is the League of Nations for if not to protect the integrity of territory and independence of small nations by every other nation? And does not this very action on the part of Britain, France and Belgium tend to close the door of the League to Germany when she has qualified for admission?

Mr. M. J. Costello, an attorney from the city of Seattle, delivered an address in Vancouver on Monday night during the course of which he took occasion to advise the Canadian people to demand of the British Government the right of self-determination for Ireland. And he says that if the present treatment of Ireland is continued the future of the Empire, which he declares is now tottering considerably, will be imperilled. This estimable gentleman from the Sound City would be much better employed were he to omit from his daily round such gratuitous instruction as to how the British Empire should be run.

**WHY ARE THE DAYS OF THE WEEK SO NAMED?**  
(Copyright, 1920, By The Wheeler Syndicate, Inc.)

Just as the names of the months were derived from the Romans, the names of the weeks come to us from the Saxons.

Sunday takes its name from the sun, one of the principal objects of worship of all primitive people.

Monday is called after the moon. Tuesday is the day of Tiu or Tiw, the son of Odin and the old Saxon god of war.

Wednesday derives its name from Woden, the chief god of the northern mythology.

Thursday is the day of Thor (or Donar) who, as god of the air, had much in common with the Roman Jupiter, to whom the same day was dedicated.

Friday is named for Frigg, wife of Odin and mother of all the deities. Saturday was consecrated to Saturn or Saterne and obtains its name from this fact.

**WHERE IT STARTED THE SAXOPHONE.**  
(Copyright, 1920, By The Wheeler Syndicate, Inc.)

This instrument, without which no modern orchestra is complete, is really a first cousin to the clarinet. It follows the same laws as the parent instrument, the main difference being in its peculiar tone. It was invented by Adolph Sax, from whom it took its name, in 1840; but did not become popular till some time later.

**PLANS MADE FOR VETERANS' GATHERING**

(Continued from page 1.)  
On Wednesday afternoon there will be a meeting at the residence of Brig-General Clark on Olympia Avenue, facing the Oak Bay waterfront, and on Thursday it is planned to follow the same plan with an official photograph of the delegates. The same evening there will be a special smoking concert in the convention hall, commencing at 7:30 o'clock. This will be open to all members of the local unit who secure tickets, which are obtainable from Secretary H. J. Young at the clubrooms.

**Inspect Observatory.**  
A trip to the Dominion Astrophysical Observatory on Little Saanich Mountain has been arranged for Friday evening, the delegates leaving the city at 7:30 o'clock.

During the first three days of the week the ladies of the Dominion Ladies Auxiliary will hold sessions in the assembly room of the Victoria Unit.

**APPEAL AGAINST DECISION OF RAILWAY BOARD HEARD**

(Continued from page 1.)  
The C.P.R. it has been shown, he said, produced in the west had yielded net earnings of 57 per cent. On the other hand 55 per cent of gross earnings in the east had produced net earnings of only 33 per cent. This showing was due to the circumstances that the operating ratio is so much lower in the prairie provinces where "we have everything that makes railway operation easy."

Mr. Symington maintained that if the Government decides that the railways are entitled to some increase they should be imposed on traffic that does not at present time pay its way. The people in the west, he said, have to pay the penalty of living a long distance from markets and Victoria and one from the coast to the interior. They have to pay for the long haul on the class of freight on which the increase must be passed along to the consumer. On the other hand wheat, the leading product of the west is a world commodity, the price of which is fixed by the Liverpool market. "The west," he said, "has for years been crucified on the altar of discriminatory freight rates and we are now asking for redress."

"The movement in the west," he said, "is to have all the

100 to 200 per cent per movement and there is no good reason why we should be penalized because of it."

The only reason given in the past for discrimination against the west, he said, were the eastern lines had to meet water competition and the competition of United States railroads. There was now no water competition worthy of the name and railway rates across the border are higher than in Canada.

In the course of his argument, Mr. Symington drew the attention of the Council to Order No. 205, issued by the Railway Commission, which provides for increases in the rate on export traffic for Montreal, Quebec, St. John and Halifax. This order, he said, had been issued by the Commission during the time when he and other opposition counsel were fighting the application of the railways for increased rates, but nothing was said to him about it. It was applicable to all shipments of grain from the West through the ports named, and operated directly against the West.

**Counsel for Toronto.**  
G. R. Geary, corporate counsel for Toronto, followed Mr. Symington and spoke for a few minutes before adjournment was taken at 1 o'clock. He expressed the opinion that the railways had not been frank in their way of bringing in the application in the first place. They had asked for a 30 per cent. raise, knowing well that a wage commission would issue a report from Chicago on a certain date. When that report had come out they had increased their demand to 40 per cent, on the plea that they must pay the increased wages. It was not a good principle to lay down that railway companies could come to the Commission and tell it that they would pay wage increases if rate increases were granted to them. The railways had at the last moment declared that they would face a general strike unless increases were granted. Mr. Geary insisted that the hearing of the case had been rushed in an unprecedented manner, and that the chairman of the Railway Commission had pressed counsel from day to day in such a way that it made it hard to become familiar with the case.

**ALL IN READINESS FOR BOHEMIAN FETE**

Masquerade Function Will Attract Many on Friday Evening

Plans for the Bohemian Fete to be held by the Students Welfare League of British Columbia, at the Willows on October 1, have now been completed.

His Honor Lieut.-Governor Prior and Mrs. Prior, Premier Oliver and Mrs. Oliver, Brig.-General Ross and Mrs. Ross, the members of the Cabinet and their wives have given their patronage to the event. Part of the proceeds will be given to the hockey fund of the Victoria High School.

Miss Eva Hart and Mrs. Harry Pooley, accompanied by Mrs. A. J. Gibson, will furnish the entertainment numbers, and a large jazz orchestra under Geo. Ozard, will play for the dancing.

Many fine prizes are being given for the fancy dress. The judges will be Mrs. Hodges, of The Times, and Miss Bruce, of The Colonist.

The Grand March will take place at about 10:15, and will be followed by a novelty dance which the committee are keeping as a mystery. This dance will be the signal for unmasking.

Special decorations will give the huge building a festive air and serpentine toy balloons will add to the gaiety.

While fancy dress is optional everyone must be masked. Masks will be obtainable at the door.

Percy Payne will have charge of the refreshments and excellent service is being provided.

A special bus service has been arranged to leave the Willows shortly after 1 a. m. for the convenience of those who have no other means of transport.

The table plan is on view at J. H. (Mickey) Richardson's, and already many tables have been booked. Those who cannot wait to reserve their tables may phone 6047, and tables will be reserved.

Unreserved tickets may also be obtained at various stores in town, and from members of the League.

**M'GILL GRADUATES ORGANIZE SOCIETY**

Victoria and District Members Elect A. E. Foreman Temporary Chairman

At a well attended meeting of graduates of McGill University, held last night at the Government Buildings the McGill Graduate Society, of Victoria and district, was organized.

A. E. Foreman, C. E., was elected temporary chairman, and Dr. Gordon Kerhugh temporary secretary. Mr. Foreman explained that the Graduate Society in Vancouver would no longer be called the McGill Graduate Society, but rather the McGill Graduate Society of Vancouver and district, and that similar societies were to be organized on Vancouver Island, in Northern B. C. and in the Yukon.

The advisability of having a separate society for Victoria City was discussed, but it was decided that it would be better to embrace Vancouver Island and the adjacent islands.

Hon. Dr. MacLean suggested that the chairman appoint a nominating committee to be composed of four members from Victoria and one from the island for the purpose of nominating officers for the society. He thought that every graduate should assist McGill in the struggle going on between University authorities for the greatest efficiency.

The chairman explained the campaign for funds, which was to be made by the university, and it was agreed that the McGill Graduate Society be appointed by the chair-

man to handle the financial campaign among the graduates.

Rev. Dr. Gray spoke of the coming visit of General Currie to the city in this connection, and suggested that arrangements be made immediately for his entertainment when he arrives.

A committee was, therefore, appointed to make the necessary arrangements, and they were instructed to communicate with General Currie at once in order that satisfactory arrangements could be made.

It was decided that another meeting would be held in the near future for the purpose of passing on the constitution and by-laws which were to be drawn up by special committee in the meantime.

**JUDGE REFUSES TO FREE PANASIS**

Winnipeg Man Will Be Produced in Court to-morrow, However

Although Robert Cassidy, K.C., vigorously protested that the police have no right to arrest and hold a man on a telegram from the police of another city, Mr. Justice Gregory of the Supreme Court on habeas corpus proceedings to-day refused to free Spero Panasis, held here on the charge of collecting \$5,000 for a Winnipeg bakery.

Panasis, according to his affidavit read by Mr. Cassidy, is also held here on the charge of assault.

"There is no such thing in law as arresting a man without a warrant and just on a telegram from the police of another city," said Mr. Cassidy. "Neither of these offences are charges on which he can be arrested without a warrant."

"Such action on the part of the police is a grave interference with the liberty of the subject under British law."

C. L. Harrison, city prosecutor, claimed authority under the criminal code to hold a man on such a charge until the warrant arrives.

"If we were not able to do this administration of justice would be impossible in a widely scattered country like Canada," Mr. Harrison said.

The judge gave Mr. Cassidy an order nisi returnable to-morrow morning at 10 o'clock when Panasis will be produced in court, Mr. Harrison promised.

## UNITED STATES HAS NEW TRADE OFFERED

London, Sept. 28.—Proposals that United States vessels participate in regular trade between the United Kingdom and the European continent were discussed at an important meeting in this city yesterday, according to London Times. This meeting was held in the extensive hall of the British Legation, at present, and engaged in it are British, French, Italian, Dutch, Norwegian, Japanese, Danish, Swedish, and Russian East Asiatic Companies, and representatives of steamship lines approved of United States ships entering the trade on equal terms, but some difficulty is anticipated because all ships practicing what is known as the rebate system, which is illegal in the United States. The rebate question was left over for further consideration by American shipping authorities.

**CHARGES WITHDRAWN.**  
Orangeville, Ont., Sept. 28.—Charges that the United Farmers of

Ontario had sent financial aid from the central body to Dufferin County to help in the election of Thomas Slack, on October 20 last were withdrawn at the election trial here yesterday.

The charges of intimidation, bribery and widespread corruption made against the U. F. O. fell of their own weight, so counsel told the court it was not necessary to withdraw them.

**HOROSCOPE**  
Wednesday, September 29, 1920.  
(Copyright, 1920, by The McClure Newspaper Syndicate.)

WHILE Jupiter rules strongly for good to-day, according to astrology, Venus changes from benefic to malefic aspect. Uranus is strongly adverse.

Business enterprises of all sorts should prosper during this position of the stars. Commerce should benefit through some rather daring venture initiated by Western financiers.

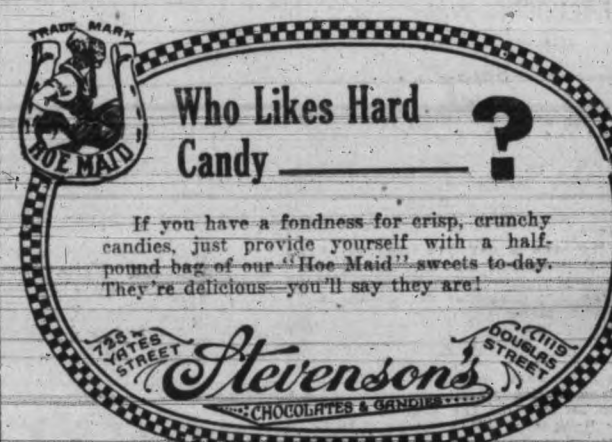

For capitalists and all who possess large resources extraordinary opportunities are adding to wealth will come again through foreign countries.

Lawyers will have great prosperity from this time on, for there will be an unusual amount of litigation.

There is an auspicious rule for professors and teachers of every class. A college president is to receive high honors through a political party.

Love affairs are subject to the most variable and uncertain influences that make for fickleness and unfaithfulness. It is not a lucky wedding day, since they who pledge their troth when Uranus frowns may soon find that they cannot agree.

Meetings between men and women who are friends may be most unfortunate during this rule, making for misunderstandings. There is a sign read as conducive to a sudden change of

## "Forty Years On the Pacific"

(By Frank Coffey)

The Pacific Ocean from Magellan's time four hundred years ago to the present day has possessed a fascination which no other ocean can claim. Pirates and buccanniers have plied their trade there long after they were routed out of the Spanish main. Cannibal stories are still brought by incoming steamers. Strange tales of forgotten civilizations rise mantly from the waste of waters hiding their mysterious beginnings from the most learned of archaeologists.

That wonderful ocean where nature had done most for its peculiar peoples is a fit setting for a story of forty years of life roaming up and down the lanes of steamer travel with occasional penetration into those lonely islands where every prospect pleases, to kingdoms whose legislatures debated whether their bodyguard should be mustered out with rusty muskets against the might of Germany, and solitary islands where rise magnificent palms unknown to the flora of less hospitable lands.

Into this region of romance and speculation of primitive barter, and placidity where the mail steamer comes once a week, Frank Coffey takes the reader in his book, just published, "Forty Years on the Pacific." Mr. Coffey is a well known business man of Sydney, N. S. W., who frequently crosses to British Columbia, where he is widely known. He tells the story of visits to the various countries which border on the ocean of Buluo, giving generous mention to the Pacific Northwest and Alaska. Apart from his anecdotes and stories of the people he has met, and the places he has personally explored, the most attractive parts of the book are the descriptions of the little known islands of the Pacific off the steamer routes. Of the Japanese influence in the former German islands he has much of special interest to say, and he opens a vista of thought with regard to possibilities of industrial progress in some of the islands which the stolid habits of their woolly headed inhabitants would not expect possible without the guiding hand of occidental civilization.

Mr. Coffey dedicates his book, which is a delightful collection of reminiscences, as a memorial of one of his sons, Lieut. Frank Coffey, who was formerly on the editorial staff of The Victoria Times, and who went back to Australia just before the outbreak of war, being killed at Gallipoli in 1915.

## DEVELOPING WORK OF BOYS' NAVAL BRIGADE IN CITY

At an aftermath of the Provincial camp held by the Boys' Naval Brigade of B. C. recently, P. A. Rayner, secretary of the Victoria branch of the Navy League, stated yesterday that the movement is beginning to forge ahead in a very satisfactory manner.

"We hope to have the finest Boys' Naval Brigade in the Dominion in a few weeks' time," he stated, and told of the conditions that would lead up to this pinnacle of prominence for the local lads.

Through the courtesy of Commander Holme, Superintendent of the Navy Yard, Esquimalt, a regulation navigation practice platform has been secured for the ship office of the Brigade at 1014A Broad Street. Steering wheel, compass and other necessary navigating gear are here set forth, and the boys will have an opportunity of making the most practical use of their technical knowledge.

Chief P. O. Curzon, who was formerly instructor to the local boys, will return to his old duties, and take up the work of training the lads afresh, stated Mr. Rayner, while A. Rumsby is to be the new bandmaster. Special care and pains are to be taken to bring the instrumental and bugle bands up to perfection, and in this the boys are said to be taking a very live interest themselves.

The organization of district subdivisions is forming one of the new features of the local development of the Naval Brigade, while Sooke, Saanich, Gordon Head and Sidney are to be included in the new activities along these lines. In this latter work, Chief Petty Officer Owens will act as instructor to the outside districts.

## ISLAND'S FIRST WHITE MAN PASSES

The first white man born on Vancouver Island, George Richard Langford, died September 11, according to information which has just been received from Lieutenant-Colonel Josling.

Mr. Langford was the only son of Edward Edwards Langford, of Colwood, and was born in 1851 at Governor Blanshard's house in Victoria—the first white native of the island. He left the West with his father and other members of the family in 1861, and since that time paid occasional visits to British Columbia eight or nine years ago. He always took a warm interest in the country, however, and was of great assistance in the preparation of Captain John Walbran's book on "British Columbia Place Names."

## STIFF JOINTS

Limer Up After Being Rubbed With "ABSORBINE JR."

A stiff knee, due to rheumatism—or a stiff ankle, the result of a sprain—or a stiff arm, because of a fall—can be relieved of pain and stiffness, by the use of "ABSORBINE JR."

Many people who have limped and suffered for years, now have free use of their limbs since treating themselves with "ABSORBINE JR."

This successful home treatment gives prompt relief from Rheumatic Pain, Lumbago, Sciatica, Inflammation of the Joints, Weeping Sines and Lameness and Stiffness.

No matter what else you have tried, get a bottle of "ABSORBINE JR." and see what relief it will give you.

\$1.25 a bottle—at most druggists or sent postpaid by W. F. Young, Inc., Lyman Building, Montreal.

## DR. CAMPBELL MORGAN MAY COME TO COAST

Dr. W. H. Smith, Principal of Westminster Hall, announces the visit to Canada of Dr. G. Campbell Morgan, the well-known Congregationalist minister of London, England, and a very great Bible teacher. He suggests that the Ministerial Association of Vancouver be appealed to with regard to the possibility of the "Gipsy" Smith fund being used to finance a visit of Dr. Morgan next Spring. This course will be adopted by the Westminster Presbytery.

Dr. Campbell Morgan, famous to the whole world of Congregationalists in the Old Country, from his long association with Westminster Congregational Church and Highbury Quadrant Church, is not only an eloquent teacher, but is also a distinguished author with a long list of works to his credit. Like many other leading Congregationalists he has held a pastorate in Birmingham, the city of John Ansell James, of Dr. Dale, and Dr. J. H. Jowett—those great pillars of English Congregationalism. Like Dr. Jowett he is well-known in the new world.

What has become of the old-fashioned family that used to reach the conclusion that it would have to economize?

## SOLDIERS MAKING GOOD IN ALBERTA

Calgary, Sept. 23.—Out of approximately 5,700 returned men who have been assisted by loans from the Sol-

dier Settlement Board in Alberta more than 98 per cent. are making good on the land, and of the two per cent. remaining very few are failures through any fault of their own, but rather on account of family troubles or force of circumstances. This is the message brought to Calgary by the field supervisors of the Board.

## FEAR CITY MUST FIGHT CASE ALONE

Aldermen Regret Break With Municipal Union Now Taxation Case Must Be Paid For

The civic authorities are beginning to fear that Victoria will have to stand alone in its fight with the Roman Catholic Cathedral over the taxation of that institution. Recently the City Council, feeling that the case was of vital interest to all the municipalities of the Province, asked them to contribute to the cost of carrying the matter to the Privy Council. Not much hope that they will respond to the request is held by most of the aldermen now, it is understood.

Indeed, some members of the Council are beginning to regret that the city broke with the Union of British Columbia Municipalities which, it is thought, might be able to help in the present trouble. They declare that the city sought a sort of "splendid isolation" for itself, and now is endeavoring to persuade the cities from which it separated itself to help it out of a difficulty.

The aldermen who fostered the withdrawal of Victoria from the Union, however, point out that the Roman Catholic taxation case was cause of the break. The reason alleged for the whole trouble between the city and the Union was that the Union continued to employ as its solicitor F. A. McDiarmid, who was acting for the Cathedral against Victoria. No other point, they say, was involved in the dispute. Insisting against Victoria, they claim, Mr. McDiarmid was acting indirectly against all the municipalities which are members of the Union of which he is solicitor. As soon as the Union is prepared to end what they consider an intolerable position they are ready to re-enter the Union, they state. They cannot see why other cities should refuse to help Victoria in the taxation case simply because the city is not taking any part in the work of the Union under the present situation affecting one of its officials.

## PHILIPPINES ARE DESTINED TO BECOME RUBBER PRODUCER

The island of Mindanao, Philippines, is destined to become one of the world's largest producers of rubber with in the next few years according to Arthur Ritchie, an American planter on that island who returned to the Philippines Saturday. Ritchie who was a classmate of William H. Taft, chairman of the Republican national committee, but realizing the wonderful possibilities of agriculture on a large scale, took a vacation of six months in Mindanao two years later. He planted a coconut grove which as a money producer has been highly successful. "While the coconuts have been the big money-making crop of the Philippines during the last five years I am convinced that in the next few years rubber will prove to be the staple that will make fortunes for those who go in for that commodity and with the growth of the automobile industry rubber producers can depend upon steady incomes," Ritchie said to a representative of a San Francisco commercial daily on board the steamship upon which he returned to Manila.

"I must admit that it has been difficult to induce American capital to see the possibilities for making money in rubber in the Philippines," he remarked "and the only excuse that I have heard is that the islands are too far away. My argument to combat this excuse has been that it would be rather difficult to find any country capable of growing rubber adjacent to the United States."

## HEARS CASES OF SIX RELEASED FROM JAIL

Prince Rupert Men Appear Before Chief Justice Here

Six Prince Rupert citizens, George A. Sweet, Charles Olsen, Oliver Bessner, D. Zarelli, John R. Miller and Kenneth Mackay, who were caught in a whiskey raid, sentenced to nine months hard labor and released from Okalla jail last Thursday by Chief Justice Hunter as a result of habeas corpus proceedings by Stuart Henderson, appeared before the Chief Justice this afternoon in the Supreme Court here, while Mr. Henderson is arguing their case.

Vancouver lawyers have come over to help the men in their fight for permanent liberty. The Prince Rupert magistrate sent them all to jail because it is said to be the second time they were convicted.

## TIRES CHEAPER THAN IN 1910

On Big Output Manufacturers Have Been Able To Reduce Prices

New York, Sept. 23.—Fire prices now are much lower than they were ten years ago.

It is a most interesting story to compare to-day with prices of the same pure prices of standard manufacture product at the beginning of the war. Good tires cost no more than in 1914. There has not even been an appreciable advance in the last two years. And yet the quality is higher and the purchaser gets more value for his money than ever before.

When one considers that prices of raw material, labor and transportation have made more tremendous leaps in the last five years than during any period in manufacturing history, the natural query concerning the "How do they hold down the prices?"

And from this comes the answer to the query, "Will prices go down?"

The standard tire manufacturer has combated price increases by developing his processes. He has expended millions of dollars in the installation of new machinery, better machinery and new methods. He has brought his output up to maximum and has made his profits on a quantity margin. He has smashed overhead expenses by use of these weapons and by putting his distribution on such a broad basis as to make it economical.

Output has about reached its zenith. So long as demand continues strong there is a possibility that tire prices will remain on their present level. But if a general determination to "hold out" should spread among car owners it is more than probable that such an attitude would tend to create a reverse effect to the one desired and send tire prices rocketing.

An illustration of the facts recited here may be obtained from the following table of price comparisons compiled recently by a leading tire and rubber company. Although this table, of course, shows only the quotations of that particular company, it may be relied upon as an average because the company is considered one of the leaders in the industry and in a standard manufacturing concern.

Size tires	1916 Price	1920 Price
20x3	\$27.60	\$ 5.85
20x3 1/2	28.75	7.15
22x3 1/2	32.50	8.85
24x3 1/2	31.90	9.90
26x3 1/2	34.10	10.40
28x3 1/2	38.50	12.25
30x3 1/2	45.00	15.00
32x3 1/2	52.00	17.50
34x3 1/2	60.00	20.00
36x3 1/2	68.00	22.50

## BRIEF LOCALS

**Donates to Firemen's Fund.**—The City Fire Department wishes to express its thanks to Noah Shakespeare for a generous donation to the Firemen's Fund.

**Cumberland Athletic Hall.**—An announcement is made by the Canadian Collieries, Ltd., of the award of a contract for the new Cumberland Athletic Hall, to cost about \$30,000, to a Vancouver firm of contractors.

**Created Disturbances.**—Harry Blackwood was fined \$10 in the city police court this morning for creating a disturbance yesterday. Charles M. Garrett, charged with a like offence, failed to put in an appearance in court, and his bail of \$50 was estimated.

**To Discuss Freight Rates.**—The Council of the Board of Trade will meet on Friday morning, when plans for the quarterly meeting set for October 8 will be arranged and the protest of Vancouver Island lumbermen against the increase in the differential freight-rates will be considered.

**Forthcoming Organ Recital.**—The first organ recital of the season in connection with the annual Harvest Festival will be given next Monday evening by G. Jennings Burnett at St. John's Church, commencing at eight o'clock, at which the public are invited without admission fee.

**Lenten Lecture.**—Nurse Killen, of the Jubilee Hospital staff, will be among the vocalists at to-night's Missionary Lenten Lecture in St. Paul's Presbyterian Church, Victoria West, at 7.30 p. m. The Women's Missionary Society of the church, extended a cordial invitation to Christian women to see these "talking" pictures.

**Endorsed Presbytery Resolutions.**—Workers in the Forward Movement met last night in St. Paul's Presbyterian Church, Victoria West, and endorsed a number of resolutions recently passed at the last meeting of the Presbytery. A thorough collection was taken, and the Forward Movement offering will be prosecuted during October. It was suggested that October 1 be observed as a day of prayer for the continuation of the work of the Movement, October 31 as Home Religion Sunday and December 12 as Life Service Sunday.

**Winnipeg Officers Coming.**—Advices from Winnipeg state that detectives are now on their way to this city to take back to the Prairie capital Spero Panasilis, the 28-year-old Greek, wanted for embezzlement of \$3,000, who was arrested here on Monday by Detective Siciliano. Panasilis has been attending the races here and is reported to be interested in the ownership of one or more of the horses. The charge on which he is being held is believed to be connected with the accounts of a bakery business in Winnipeg.

**Illegal Possession Alleged.**—A Stevens appeared this morning in the St. James Hotel bar, R. C. Lowe, on his behalf entered a plea of not guilty, and the charge was remanded until Friday. W. Motiush was also charged, but owing to not having been personally served with the summons he failed to be present. He is a part proprietor in the bar, and will be charged with Stevens on Friday.

**Assault Charge Dismissed.**—A Strom, proprietor of the Western Hotel, who has been appearing on remand for several days past in the city police court on a charge of assaulting Theodore Rosland, this morning explained to Magistrate Jay his claim of self-defence. The woman who could have given additional information having left town, and Rosland having been too drunk to be able to give an account of the fracas, Magistrate Jay accepted the explanation and dismissed the charge, first commenting on the manner in which the hotel had been operated of late.

## MAN O' WAR LEAVES FOR HIS BIG RACE

New York, Sept. 29.—(Canadian Press)—Samuel Riddle's remarkable three-year-old colt, Man o' War, will be shipped to Kenilworth, Ont., for his race with Sir Barton on October 4. Louis Feustel, his trainer, decided yesterday to get his horse there several days before the race, which is scheduled for October 12.

The colt was in fine fettle yesterday. When allowed his head he breezed the mile in 1.45, pulled up.

## MR. CANAVAN BURIED

Masonic Services Conducted at the  
Gravestone For Late Irrigation  
Expert—Many Attend

The remains of the late Herbert W. Ebbs Canavan well-known civil engineer were laid to rest this morning in the family plot in Ross Bay Cemetery.

Services were held at the B.C. Funeral Chapel at 10.30, the Rev. H. T. Archibald officiating in the presence of a large congregation. The hymn sung was "Nearer My God to Thee." Many lovely floral tributes covered the casket and filled the hearse, testifying to the esteem in which the late Mr. Ebbs was held by a wide circle.

The obsequies were in charge of St. Andrew's Lodge, No. 49, A.F. and A.M., and the service at the graveside was conducted by L.F.M. Shepherd, E. Horsey, assisted by W. Bro. E. H. Hewlings, acting chaplain.

Palbearers were the following members of St. Andrew's Lodge, of which Mr. Canavan was a member: Worshipful Brother R. F. Green, M.P. Worshipful Brother F. M. Hewlings, Worshipful Brother M. J. Little, Brother Henry Eason Young, Brother J. M. Whitney and Brother H. J. O'Brien.

## RUGGED SCENERY IS LECTURE SUBJECT

An illustrated lecture, on the development proceeding in the more unsettled portions of the Province, was given by W. W. Baer last night in the Connaught Seamen's Institute to an interested audience. With the aid of a remarkable series of lantern slides, Mr. Baer brought his audience in close touch with the scenic beauties to be found along the route of the Pacific Great Eastern Railway, in the Kettle Valley, and on Vancouver Island.

The views were accompanied with explanatory comment of the most interesting description, and the Rev. H. T. Archibald, who as chairman thanked the lecturer, said the lecture had been of great value to those who were unable personally to view the grandeur of the Province. The address was given in aid of the funds of St. James's Church.

She measured out the butter with a very solemn air.  
The milk and sugar also; and she took the greatest care.  
To count the eggs correctly, and to add a little bit.  
Of baking-powder, which you know, beginners oft omit.  
Then she stirred it all together, and she baked it for an hour.  
But she never quite forgot herself  
For leaving out the flour.

## Old Age Deferred

BY DR. LEE H. SMITH.

Business men who must speed up the works and make business boom during these days—after the war—must recognize the necessity of keeping fit. When mind is befogged, when you have dull headaches or feel logy, when not "up to snuff," keep the bowels free with a mild laxative. In the morning take a tepid sponge bath (cold water may be used if it does not chill), follow with a brisk rub down; a sufficient "setting up" exercise in good air until you are in a warm glow. Have you tried it lately?

Don't let the poisons accumulate in the intestines either, but try a dose of castor oil the first thing on arising, or a pleasant laxative occasionally, such as one made up of May-apple, aloin and jalap, rolled into a tiny sugar-coated pill, and sold in every drug store as Dr. Pierce's Pleasant Pellets. Then a cup of hot water before breakfast, and you'll feel better than a king! If you continue in life thus, you can pass a Life Insurance examination at sixty.

If you wish to prevent old age coming on too soon, or if you want to increase your chances for a long life, you should drink plenty of soft (rain) or distilled water daily between meals. Then procure at the drug store Dr. Pierce's Anuric (anti-uric-acid). This "Anuric" drives the uric acid out and relieves backache and rheumatism, as well as kidney trouble. Anuric dissolves uric acid. Try it now!

## NEWS AND NOTES OF THE MINES

To Ship Via Canal  
The Granby Consolidated M. S. & P. Co. has arranged with the Canadian Dollar Steamship Co. to transfer all its blister copper from Anyox to New York by way of the Panama canal, and that it is not likely that the ships will return in ballast. Previously the Granby Company has shipped its copper by the Canadian Northern.

**Trail Shipments**  
Three new shippers to Trail for the current year reported in the current statement of smelter receipts. These properties are the Yankee Girl, at Ymir, which is being developed by the Mining Corporation of Canada, and the Ruth and Skyline, of Alansworth.

The receipts for the week were 8319 tons, of which 219 tons were concentrates. This brings the total receipts at Trail for the year to date up to 238,991 tons, of which 4986 tons were concentrates and 234,005 tons were crude ore.

**Mexican Petroleum**  
Mexico promises to become the oil reservoir of the western hemisphere, the United States Department of Commerce declares. Exclusion of 40 per cent. of the producing fields of the United States, the department's review says, has caused Mexico to take second place in oil production, although on about 12 per cent. of the potential capacity of Mexican wells is being actually produced. Oil exports from Mexico during the first six months of 1920 totaled 60,000,000 barrels, an increase of 72 per cent. over the previous year. At this rate total exports for the year are expected to reach 135,000,000 barrels. Development of the Mexican oil fields, however, is only in its infancy, the review states, adding that of the 231,250 square miles of territory believed to contain oil deposits not more than 800 square miles are being exploited. It is estimated to be invested in the Mexican oil industry, including \$50,000,000 in tankers, about 70 per cent. represents American capital, about 27 per cent. is British and Dutch capital, and 3 per cent. Mexican and other interests. Twenty-seven companies are producing oil in Mexico, seventeen of which are American-owned, five Spanish-American, three Dutch and two British. The United States imported 71 per cent. of the oil exported during the first six months of 1920.

**Uk Wins Cup**  
The Uk mining district has captured the district mineral exhibit challenge cup at the Prince Rupert fair. The attention of the Uk people was this year taken up with the sending of a complete exhibit to the Old Country and this is given as the reason why their efforts were not more strenuously directed towards the winning for a second time of the Agricultural Association's trophy.

## GEE, BUT IT'S GOOD FOR A BAD COLD

Nothing Can Touch Catarrh-  
ozone In Curing Quickly.

You may dislike taking medicine but coughs are best cured without medicine. The modern treatment is "Catarrhazone"—it isn't a drug—it's a healing vapor full of pine essences and healing balsams. It spreads over the surfaces that are weak and sore from coughing. Every spot that is congested is healed—irritation is soothed away, phlegm and secretions are cleaned out and all symptoms of cold and catarrh are cured. Nothing so quick, nothing so sure, so pleasant as Catarrhazone. Beware of dangerous substitutes meant to deceive you for genuine Catarrhazone. Large size which lasts 40 days, small size 25c, at all dealers.

## OBITUARY RECORD

The funeral of Clifford George Roy, the seven-week-old son of Mr. and Mrs. George Roy, of 1329 Denman Street, and grandson of Mr. and Mrs. W. L. Polard, of 1158 Pembroke Street, took place yesterday afternoon at 3 o'clock from the Sandi Funeral Chapel. The Rev. H. T. Archibald officiated, and the hymn sung was "Safe in the Arms of Jesus." The service was largely attended by relatives and friends. The interment was made at Ross Bay Cemetery.

The funeral of the late Edward Scrope Shrapnel took place yesterday afternoon from the B.C. Funeral Chapel at 2.30 p. m., proceeding to Christ Church, where a large and impressive service was conducted a few minutes later by Rev. Dean Quinlan. The attendance was large, including the Campfire Association, which attended in a body. The casket was covered with floral tributes. Two hymns were sung, "Nearer My God to Thee," and "Onward, Christian Soldiers." The remains were laid to rest in Ross Bay Cemetery.

The funeral of the late William Richard Wagland, whose death occurred last Saturday, took place yesterday afternoon at 2 o'clock from the Sandi Funeral Chapel. The very impressive service conducted by the Rev. W. B. Baugh-Allen was largely attended by relatives and friends, and the Campfire Association, which had been invited to the service. The following acted as pallbearers: Messrs. F. Hatherill and A. Alexander, both of whom were personal friends of the deceased; Brothers James Ishister and H. Calow, of the Order of Foresters, and Brothers McKay and W. Niblock, I.O.O.F. At the graveside the burial rites were read by N. Murray, N.G., and W. J. Gower, chaplain of the I.O.O.F.

## Can You Save \$80 Per Annum?

For 4 years and get the "start" for a good farm on Vancouver Island?

Don't you envy the man that has a ten-acre "patch" under fruit with a nice little home on it? He is not in and out of work and hunting jobs all the time, and remember that his farm had to be "cut out of the woods" and in some places this meant far worse clearing and breaking than the land we are offering; now what is it worth? \$500 to \$600 dollars per acre, and the owner is getting a comfortable and profitable living off it.

## Start While You Have the Opportunity

Invest \$50.00 now for 10 acres and \$50 each year for 4 years until you have paid

### \$400.00

No interest to worry about; then put your slack time and spare dollars

## TO WORK FOR YOU

and improve it and very quickly. You will be independent of the labor market, and be like the owner of the place you have so often envied, especially

WHEN YOU HAVE BEEN OUT OF A JOB

Come and see us and let us arrange for you to see the land

DON'T PUT IT OFF—DO IT NOW

## Vancouver Island Fruit Lands, Ltd.

100-111 Belmont House, Victoria, B.C.

## VICTORIA CITY, 1920 TAX SALE

Of Improved and Unimproved City Property  
will be held on

TUESDAY, OCTOBER 5TH, 1920  
at 10 a. m., in the Council Chambers, City Hall.

At the above time I will proceed to sell by public auction all real property in arrears for 1916 and previous years, together with all properties in default on which taxes are being paid on the installment plan. In order to prevent real property from being sold, it will be necessary before that date to pay:

**CLASS "A"**  
Those who are paying arrears on the ten yearly payment plan must have paid each installment due, including that falling due on the 15th September of the present year, together with interest at 6 1/2% and all taxes, General and Local Improvement, for the years 1918 and 1919.

**CLASS "B"**  
Those who owe arrears of taxes, either General or Local Improvement, for the year 1918 or any previous year must pay in either of the following ways:

1. All arrears to the end of 1916 and interest at 6%.
2. Or all arrears to 31st December, 1919, in full, in which case 10% of all General Taxes will be deducted, and the interest on same will be cut in half.
3. Or ten per cent. will be deducted from the General Taxes and accrued interest thereon if One Tenth of the remainder, together with interest at six per cent. from the 1st January last is paid. Nine years will then be given to pay the balance (one tenth each year). Interest on these payments will be charged at six per cent. instead of eight per cent. Tax Notices for 1920, showing all payments in arrears, due and accrued due have been sent out according to law.

Bring your Tax Notice to me at once and set statement of exact amount you will require to pay under your choice of the above settlement plans.

Investors and others may secure lists of properties liable to be sold at this Tax Sale at my office any time after September 17th, 1920.

**IMPORTANT**  
Owners not liable to have their properties sold in this 1920 Tax Sale but who owe arrears for 1919 only, or any previous year or years, may settle on either of the last two plans. These are money-saving settlement plans and will avoid danger of next year's Tax Sale, but must be taken advantage of before October 5th. On October 4th these options cease.

## To the Investor:

The upset price includes all taxes to and of 1920. Indefeasible title given free after one year from sale if not redeemed. If redeemed, 9% interest given to purchaser on amount paid.

EDWIN C. SMITH,  
City Hall, Victoria, B. C., August 25th, 1920. Treasurer and Collector

### Rowe Rides Prairie to Best Win of Race Meet

Emmert Entry Won Last Race Yesterday Afternoon and Paid 13-1, Highest Odds of Week; Rowe's Mounts Were Heavily Backed, But He Was Three Times Nosed Out of Straight Money.

When Jockey Rowe pulled the Emmert-gelding Prairie out of the field at the turn into the home stretch and rushed him to the post a winner by a neck, he won the honor of riding the best long-shot of the week. It was the last race on yesterday afternoon's programme and incidentally the closing race of the meet, and drew a fast field. Most of the horses had been consistent winners, and Mineral Jim and Little Jake, level entry, were installed heavy favorites. At no stage of the race was either of these ponies a serious contender.

The gate was sprung at the six furlong post and eight thoroughbreds got away to a beautiful start. The field was well bunched, with Volma's lead being continually in danger. Rowe had Prairie running easily and for back waiting for a chance to slip through on the rail. The opening came when the ponies rounded the last turn. With a bound, Prairie leaped through and overtook the struggling Volma. Prairie had all the rest of the field in the thrilling finish.

Prairie paid his backers 13-1 and was the best bet of the week's racing.

**An Outsider's Day.**  
The favorites had had racing luck and the outsiders romped away with most of the places. Billy Nestlehouse and Bassano Boy were the only two ponies to draw public choice, only two ponies to lead their fields to the wire. Min McLeod paid 10-1 in the third race and Minstral increased his backers' money six times in the second race. For place in the last race Volma paid 4-1.

The feature event on the card was the Mayor Porter Handicap, over one mile and one-sixteenth. Bassano Boy won the race, watching the efforts of Billy of the Kitchen and Minnie H., which won the mile the previous afternoon. Bassano Boy was not pressed in the closing furlong and won handsily with Billy of the Kitchen second and Minnie H. third.

On returning to the judges' stand Mayor Porter placed a floral wreath on the winner and heartily congratulated Martin on the masterly race he rode.

**First Favorite Loses.**  
In the opening race, Madison won by a silver service as a mark of appreciation for his work and the popular Brown responded in the sixth with a homer to the pavilion in right field for his 24th hit of the campaign, establishing a new American League record to supplant that of Ty Cobb, who made 24 safeties in 1911. In the eighth inning Sisler made it 2-0 with a long triple.

Cleveland concludes its series here to-morrow.  
Score: R. H. E.  
Cleveland ..... 9 12 1  
St. Louis ..... 5 10 2  
Batteries—Shaw, Shirley and O'Neill; Bayne, Burwell and Severeid.

**An Even Break.**  
Boston, Sept. 29.—Boston closed the American League season here today by breaking even in a double-header with Washington. The Red Sox won the first, 5 to 3, while the Senators were compelled to go ten innings to earn the decision, 7 to 6, in the second. The Red Sox finished the season in fifth place, with seventy-two games won and eighty-one lost for a percentage of .471.

**First Game.**  
Score: R. H. E.  
Washington ..... 3 8 2  
Boston ..... 5 10 1  
Batteries—Shaw, Shirley and O'Neill; Pennock and Schang.

**Second Game.**  
Score: R. H. E.  
Pittsburgh ..... 3 10 2  
Cincinnati ..... 5 7 1  
Batteries—Hamilton, Morrison and Schmidt; Eller, Brenton and Karden; Allen.

## SPORTING NEWS

### Want New York as Centre of Ice Hockey's Big League

Toronto, Sept. 29.—For ten years there have been rumors of a "big league" of professional hockey which would be of international character. It has always been felt that hockey would some day be on the same basis of importance in winter sports in the United States as baseball is in Summer.

All the game requires in the big cities across the line is a decent trial to attract and hold a following equal to any sport on earth. It has found a permanent place on the Coast, and Canada, of course, is strong for the game.

Now the idea has gone much further and plans are so well under way toward the formation of such a league that it is almost a certainty it will go through.

**New York the Centre**  
The big centre under the present idea is to be New York, and the plan is so far advanced that negotiations to secure Madison Square Garden for a hockey arena have been under way with excellent hopes. A representative was in Toronto from New York recently and Eddie Livingstone, who

### Plays Show Where White Sox Erred in Big Series

Last year's world series records show that in the first inning of the first game Eddie Cicotte started by hitting Rath, first Cincinnati batter, in the back. Daubert followed with a single over second base that sent Rath to third and he scored when Groh flied to Jackson, Rath beating Jackson's throw to the plate.

The end of Cicotte's pitching and the runs that ultimately won the game for Cincinnati came in the fourth inning. All the damage was done with two out. With Kopf on first, Neale and Wingo singled. Reuther, the hard-hitting Cincinnati pitcher, drove a three-base hit to the centre field bleachers. Rath doubled and Daubert singled, the combination resulting in five runs. Wilkins took Cicotte's place after Daubert's single and Groh flied to Felsch. The final score of this game was 3 to 1.

**What Happened.**  
The fourth game, played at Chicago, is charged, was thrown away, according to court officials, who heard Cicotte's statement, and jury. The Reds won this game 2 to 0. Ring, pitching for Cincinnati, holding the American League champions to three hits in the fifth inning, when two of Cincinnati's hits were bunched with a wild throw to first by Cicotte and a bad throw to first by Jackson, which the pitcher intercepted and muffed. The play of this inning was sent over the Associated Press wires as follows: "Rough was out, Schaik to Gandil, the ball rolling half way to the pitcher's box. Duncan was safe when Cicotte threw his drive wide and the ball going to the stand and Dun-

**Williams Part of It.**  
Beside the two defeats registered against Cicotte in the series, three others were chalked up against him. The latter was wild in the second and fifth games, which he lost. Both Chicago players, Fred McMullin, utility player, \$15,000.

**Somebody Blundered.**  
Either Gandil, who Cicotte said first arranged the "throwing," or Abe Attell, the go-between of the gamblers, \$75,000, which he kept eight players were to have received.

**Cicotte Did It.**  
Evidence on which seven White Sox players and one former member of the team were indicted was uncovered by Charles A. Comiskey, president of the club, and furnished by him to the grand jury. Attorney Austrian said while Jackson was testifying.

**This "blow-off" is due to Mr. Comiskey's action.** Mr. Austrian said, "as soon as he knew what the state of affairs was, he ordered me to go ahead. We rushed the evidence to the grand jury and are now having Jackson tell what he knows of the affair. This is due to Mr. Comiskey's desire to get at the bottom of the scandal."

**While the indictments at present contain but one count, Conspiracy to defraud, the Assistant State's Attorney Hartley Reglogie in charge of the grand jury investigation announced that more probably would be added. Just before the indictments were announced a witness was ushered out of a disused rear door of the grand jury room. He was reported to be Eddie Cicotte, the White Sox star pitcher.**

**Cicotte, who was named in the story of the alleged gamblers' plot told at Philadelphia on Monday night by Billy Maharg, former prize-fighter, is said to have signed an immunity waiver and then to have gone before the grand jury and testified. The sudden voting of the true bills followed.**

**More Confessions.**  
Chicago, Sept. 29.—Further confessions by some of the seven White Sox players, who, with one former player, were indicted yesterday in connection with the alleged throwing of the 1919 world's series, will be made within a day or two, Alfred S. Austrian, attorney for the ball club announced today. It has been reported that at least two of the seven were anxious to supplement the confessions of Eddie Cicotte and Joe Jackson with their statements.

**Tras Bill's naming.** Three ball players not members of the White Sox and three gamblers, are expected to be voted to-day by the grand jury. Members of the jury said this morning, they had sufficient evidence on which to base indictments. It was reported that the bills against two National League players were being considered.

**Williams on Carpet.**  
At 12.30 o'clock Claude Williams appeared at the criminal court building and was conducted to the grand jury room. Williams has made a complete statement, Attorney Austrian announced. He said Williams furnished considerable information about the gamblers involved in the purchase of the Sox players and also named the go-betweens—it was announced.

**Williams said he was supposed to get \$20,000 and Jackson the same.**

**COMRADES FOOTBALLERS TO MEET THIS EVENING**  
There will be a meeting of the Comrades Football Club this evening at 8 o'clock. Business includes the election of officers and new playing members, also those interested, are asked to attend.

**COMRADES FOOTBALLERS TO MEET THIS EVENING**  
The Dockyard team announced its withdrawal from the Intermediate League and will mean a redrafting of both schedules. The games set for Saturday are as follows: Senior—Metropolitan vs. Com-

**SENIOR SOCCER RACE**  
Army and Navy Veterans Withdraw—Association Decides to Affiliate  
Decision to affiliate with the B.C.F.V. was made by the Victoria and District Football Association at a meeting held last evening in the G.W.V.A. club rooms. Some time ago the Association favored the move but left it to the teams to decide as they had to apply for affiliation with the body. The teams find that it is the only course open to them as the B.C.F.V.A. is the recognized football body in this province and without affiliating with it the local teams could not engage in outside competition.

**Second Withdrawal.**  
The Dockyard team announced its withdrawal from the Intermediate League and will mean a redrafting of both schedules. The games set for Saturday are as follows: Senior—Metropolitan vs. Com-

### Despite Loss of Stars White Sox Hope to Win

Manager Gleason Says He Is Glad Whole Thing Has Been Exposed; "Now Has Team of Real Men and Ball Players"; More Evidence Comes Out In Serious Charges of Throwing Games.

Chicago, Sept. 29.—"We're going to win the pennant and then the world's series in spite of this," Manager William Gleason, of the White Sox, said to-night.

"The thing has come to a head and I'm glad of it," he said. "I've been working on this affair with Mr. Comiskey for a long time and it has kept me under a tremendous strain. This evidence we were able to give the jury to-day evidently was sufficient, and I'm mighty happy that it all cleared up."

"The men on my team now are real men and real ball players and we're going to win the pennant and then the world's series in spite of this scandal."

Chicago, Sept. 29.—Indictments of five or six gamblers was considered to-day by the Cook County grand jury in connection with the throwing of baseball games, according to Hartley Reglogie, assistant state's attorney in charge of the inquiry. Abe Attell, former featherweight champion, and Arnold Rothstein, of New York, were said by Reglogie to have been involved in testimony presented to the grand jury. Attell it was said, handled the money paid White Sox players for "throwing" the 1919 world series.

**SISLER HANGS UP A NEW HITTING RECORD**  
Breaks Ty Cobb's Mark of 248 Hits in Season—Another Win for Cleveland

Copies of telegrams sent prior to and during the 1919 series by Hal Chase and Bill Burns, former major league players, have been obtained by Heydler for presentation to the grand jury. John J. McGraw, manager of the Giants, also has been asked by the grand jury to appear to-day to tell about the release of Hal Chase, Lee Magee and Heinie Zimmerman by the Giants last year.

**Other Players Involved.**  
Statements by several ballplayers have involved Chase in the deal by which gamblers are said to have paid eight White Sox players to "lay down" in the sixth game when pitcher Eddie Cicotte told the grand jury yesterday that he understood the eight players were to get \$50,000, but that they were to be paid in two installments, \$25,000 each, one before the game and one after.

**Local Fans Presented George Sisler.**  
With a silver service as a mark of appreciation for his work and the popular Brown responded in the sixth with a homer to the pavilion in right field for his 24th hit of the campaign, establishing a new American League record to supplant that of Ty Cobb, who made 24 safeties in 1911. In the eighth inning Sisler made it 2-0 with a long triple.

**Why Stay Fat?**

The answer of most fat people is that exercise and dieting is too hard, too troublesome and too dangerous a method to force the weight down. However, in Marmola's Prescription Tablets, all these difficulties are overcome. They are absolutely harmless, entail no dieting or violent exercise, and have the added advantage of cheapness. One little tablet after each meal and at bedtime—as pleasant to eat as candy—will reduce two, three or four pounds a week, and leave no bad results such as wrinkles or flabby skin. A good size box is sold by drugists at the reasonable price of one dollar, or if preferable they may be obtained by sending the amount to the Marmola Co., 24 Garfield Building, Detroit, Mich. They will be ready by mail, prepaid, in plain, sealed cover.

Now that you know this you have no excuse for being too fat, but can reduce two, three or four pounds a week without fear of bad after-effects.

MADE IN VICTORIA FRESH DAILY

If Unable to Obtain Phone 2185 or Call at 936 North Park Street

Pack meets every Tuesday at 7:30 p.m. Scoutmaster's telephone 1024H.

Oak Bay—Meets every Friday at 7:30 p.m. for instruction and general scout work; Saturday at 2 p.m. Instructor in telegraphy, Lieut. Wilfred A. Greene, R.A.F. Scoutmaster, Seymour G. Greene.

Members of the troop will be glad to hear that J. Hamilton Gunn, a member of the Victoria High School Teachers' Staff, has consented to act as A.S.M. of the troop. With the fine war service record of Capt. Gunn, any troop may well be proud of his connection with them as instructor and Scoutmaster. Dr. Hallett, R.A.M.C., has kindly consented to give First Aid instruction during the winter months. An instructor in Swimming and Rescuer's Badge, an Old Scout, has been obtained. The following have duly qualified for Second Class Badge: Bruce White, Cyril Ivens, Thomas Kirby, Fred Rogers and Gerald Campbell.

Pack—The following have duly qualified for First Star: Dick George, Harry Johnson, Ernest Peden and Donald Watson.

Gonzales Pack—Headquarters same as Oak Bay Troop. Meets every Thursday at 7:30 p.m. The Cub Service Star has been awarded to the following cubs: Sixer Sturrock, Second Edwin Sturrock, Second Eon McConnan and Charlie Hobson, all having completed one year's service as Wolf Cubs.

Note—The Oak Bay Pack meet in future at 5 p.m. sharp on Fridays.

Hillside (Centennial) Troop and Pack—Scoutmaster, A. Brown. Meets Fridays at 7 p.m. in Centennial Church. The following have been made: Patrol leaders, Scouts Douglas McMillan and Clifford Deaville, A.S.M., Frederick W. Ansett.

Address of Scoutmaster, 2542 Douglas street (after 5 p.m.) near Gorge road on Douglas.

First Presbyterian Church Pack—Headquarters, First Presbyterian Church. Meets every Friday at 7 p.m. No meeting held during holidays, but next meeting held when called by Mr. Boyle, Phone 4951L.

Notes.

Patrol Leaders' meeting is to be held on Wednesday, October 6, in the office of the secretary at 8 p.m. Mr. Scarrett in the chair. All troops are expected to send in all their patrol leaders to attend this meeting for organization purposes.

A Troop Field Day will shortly be arranged, full particulars to be published shortly.

The parents' meeting held at Oak Bay last Wednesday, on account of the Fair, was not as well attended as hoped for, consequently the selection of a committee was not proceeded with, but it is hoped the parents' meeting will be better attended.

MacLean Troop and Pack—Headquarters, 401 Esquimalt road. Meets every Friday at 7:30 p.m. Scoutmasters, P. A. Trowdale and A. MacArthur.

Fairfield, Christ Church Cathedral Troop and Pack—Headquarters, Cathedral Schoolroom, Quadra street. Scoutmaster, G. Frampton. Troop meets every Tuesday at 7:30 p.m.

James Bay Wolf Club Pack—The Pack is making good progress, but still has room for a few more boys from the James Bay district, apply Friday evening, 7 o'clock, at Pack headquarters, corner of Douglas and Simcoe streets.

James Bay Troop—Owing to last Wednesday being a holiday the usual First Aid class was not proceeded with. This week and the lecture on the Circulation of the Blood, announced for last Wednesday, will be the subject for next Wednesday's class.

E. P. McKie, Secretary of the Troop Committee, will be glad to hear from anyone willing to act as scoutmaster of this troop.

## at the Theatre

### REVUE PORTRAYS REAL SOUTHLAND

"Mammy's Birthday" Is Feature at Pantages This Week—Many Novelties

The atmosphere of the real Southland pervades the headline act at Pantages Theatre this week. "Mammy's Birthday" is the title of the Southern musical revue, with the scene laid on the front of an old Colonial mansion.

Charming in its staging, music and dancing and peopled with dashing girls, is "Mammy's Birthday." Chas. W. Boyer & Co. are presenting the offering, which in itself is sufficient guarantee of excellence. The idea of the act is to present a birthday party for an old negro "mammy" given by Southern girls. During the action of the revue singing, dancing, musical specialties and impersonations are offered by each member of the company. It is rated as one of the best dancing companies that has traveled the Pantages circuit this season.

The Three White Kuhns, in "A Breeze From the West," appear as the special added attraction. They are the official jazz dispensers of the bill and introduce selections on the bass-viol, banjo and guitar, as well as giving vocal numbers. They sing their own songs in an original way, and the comedian of the trio provokes a lot of laughter with his much-maligned bass fiddle.

"A League of Relations" is the title of another act that is accompanied by mirth. Will and Mary Rogers are fun-makers de luxe and their brand of dialogue and effective action.

Low Welch, the celebrated Yiddish comedian surrounded by a talented company, appears in a character sketch entitled "The Prodigal Father." Welch is one of the ablest character impersonators in the Pantages group and never fails as an entertainer. As the father, Jacob Rabinowitz, he has splendid opportunity to display his imitable mannerisms.

Rats, cats, a dog, canary birds and guinea pigs take part in "Tiny Tots of Animaldom," a dainty and interesting act offered by Lady Alice. The rats, usually regarded as stupid creatures, do some astonishing tricks, while the cats, their natural enemies, show apparently the greatest friendship for them. The cats and other animals and the birds in turn all go through performances of their own, the act having a special appeal for children.

There is another instalment of "Trailed by Three," the Pathe serial.

### SYMPHONY ORCHESTRA DELIGHTS VICTORIA

Minneapolis Aggregation in a Wonderful Programme—Soprano Wins Ovation

Twice within the past week Victoria has been treated to a rare musical feast, and the two thousand enthusiasts who listened with delight to the appealing programme given by the Minneapolis Symphony Orchestra, particularly enjoyed the performance of the "Whilens" last evening came away with the impression that this fine aggregation of musicians enjoys a similar position in the world of instrumental music to that occupied in the vocal sphere by the Scotti Grand Opera Company.

The opening bars of the majestic Tchaikowsky Symphony No. 4, revealed the capabilities of the orchestra, and placed the audience attitude for the remainder of the well-chosen programme. The sonorous notes of the brasses were followed by the wood-wind and the melody taken up by the strings until the air was filled with the diapason of perfect harmony, the ensemble serving only to emphasize the individuality of each of the sixty odd instrumentalists.

The third movement—pizzicato ostinato—was particularly appealing, the instruments verging into the grand finale with perfect smoothness and rhythm. Cowen's four English dances in the olden style were gems of charming suave tone with perfect tempo, while quaint effects were achieved in the descriptive "Molly on the Shore" (Grainger).

But the chef d'oeuvre was the Tannhauser overture, an epic in musical values interpreted with a majesty befitting this sublime composition. Admirable restraint, a meticulous nicety of tempo and strong attack were observed throughout, the tribute to the perfect accord existing between orchestra and conductor.

M. Emil Oberholfer, the conductor, was the essence of reserve, depending on no extraneous devices to ensure the brilliant and dramatic effects which characterized his interpretation of the Wagner masterpiece. One felt instinctively that he was in rapport with the instruments, with the perfect understanding which is the fruit of long association.

Florence Macbeth, soprano, met with an enthusiastic reception, the applause amounting to an ovation at the close of the ever-popular "Annie Laurie," sung as an encore to David's "Charming Overture." Her voice is of flute-like purity and wide range, in addition to which she has the invaluable attributes of perfect enunciation and charming personality.

The florid Hell Song from the opera "Lakme" revealed fine coloratura while in the well-known aria from "The Pearl of Brazil" her voice followed the flute obligato with velvety smoothness and brilliant tone.

The success of last night's concert brought home anew the loss which

### AMUSEMENTS TO-DAY

Pantages—Vaudeville.  
Columbia—"Rio Grande."  
Variety—"A Lady's Name."  
Princess Theatre—"Wife in Name Only."  
Royal Victoria—"The Adventurer."  
Dominion—"The World and His Wife."  
Romano—"The Girl in Room No. 29."  
Cabaret.  
The Criterion—Belmont House.

Victoria sustains in the absence of a municipal symphony orchestra and created the hope that the Minneapolis orchestra and the assisting soprano will again visit this city at an early date.

### COMEDY DRAMA AT THE PRINCESS

"Wife in Name Only" Will Be Vehicle of Mildred Page Players This Week

The play chosen for the offering of the Mildred Page Players is "Wife in Name Only," a comedy-drama rich in heart interests and thrills and full of bright, natural comedy scenes which are in the hands of those well able to handle them to the best advantage.

There is a special scenic production in preparation, and there will be nothing lacking which may be required to make the play a complete success.

Miss Nina Gribbert will be seen in one of those parts so well suited to her sunny personality, and Arthur Elton will again delight his many friends with one of his splendid comedy characterizations.

Miss Page, as Phyllis, has a beautiful part, and one well worth the earnest work she will put into her preparation for the same. Byron Alden's part, too, is a splendid one, full of the wistful pathos which is bound to permeate even the unselfish cheerfulness of a blind man. All will go home with a sense of gladness, not sadness, when they have seen "Wife in Name Only." It will begin to-night at the Princess Theatre.

### COLUMBIA TO-DAY

"Rio Grande"—The Edwin Carew-Pathe feature production, is on view at the Columbia Theatre to-day for the last time. It gets its name from the river that separates Mexico from the United States. Across orange-colored, sun-scorched deserts, the silvery Rio Grande winds its way, while the purple hills, their peaks forming a jagged silhouette against the blue sky, watch the history of that romantic land. Augustus Thomas's story of "Rio Grande" concerns itself with the charming love affair of a certain brown-eyed Senorita on the Mexican side of the Rio Grande, and a bold and adventurous Irish-American on the Texas side. Rosemary Theby and Allan Sears were chosen for the leading roles because of their peculiar suitability for the parts, and the remainder of the cast was equally well chosen. Mr. Carew staged the picture in Texas on the very spot Mr. Thomas wrote about.

### DOMINION TO-DAY

Martin Harvey's Great Play "The World and His Wife"

The renewed interest in modern Spanish literature, brought about in large measure by the success in this country of the novels of Vicente Blasco Ibanez, has been reflected in motion pictures.

"The World and His Wife" featuring Alma Rubens and now at Dominion theatre, is based upon a classic of the Spanish stage that has had an interesting history. Jose Echegaray, one of Madrid's foremost dramatists, wrote the original play, "El Gran Galeoto." It was adapted into English by Charles Frederic Nirdlinger and in 1898 it was produced on Broadway under the name of "The World and His Wife." William Faversham and Julie Opp played the leading roles.

The cinema version of "The World and His Wife" has been produced upon an extremely elaborate scale. It is full of the dash and color of old Spain—Montagu Love, Gaston Glass, Pedro de Cordoba and Charles Gerard are included in the cast with Miss Rubens. The picture is a Cosmopolitan production released through Paramount Artcraft.

### CRITERION TO-DAY

"ROMANCE" TO BE PRESENTED AT VARIETY

The return of the real story of love to the screen, is a story which picture-reviewers everywhere have unanimously been describing Doris Keane's wonderful success in "Romance," the United Artists Corporation production, which was written especially for Miss Keane by Edward Sheldon.

It is said to be full of poetic imagination and charming sentiment, while the love romance of the prima donna and the clergyman is as novel and unusual as its very mention suggests.

Miss Keane as the sparkling Grand Opera star, Mme. Cavallini, is credited with an absolutely new success, one that puts her in the front rank of screen artists and which has won for her the enviable reputation of being the greatest emotional actress on the screen, as well as on the stage.

There is also coming to the Variety Theatre the greatest animal picture ever seen, "The Lost City."

## WILLIAM FARNUM HERE IN ADVENTURER

Popular Actor to Appear at Royal for Balance of Week

William Farnum will be seen in a delightful role at the Royal Victoria Theatre, beginning to-night, when William Fox will present the famous star in "The Adventurer," by E. Lloyd Sheldon. The popular artist will be seen in a character which is admirably suited to him, and is said to show him at all times at his best. He is a happy, duelling adventurer. His wonderful swordsmanship is one of the features of this strongly dramatic story.

Farnum is a type of actor who has what is known as personality plus. He has more than a pleasing screen presence and it is in these romantic roles that he always is at his best. "The Adventurer" is a delightful story, and the man voted to be the best lover on the screen is given ample opportunity to display his art.

A fine cast has been selected. A newcomer to this city is the leading woman, Estelle Taylor, who brings to the part of Maritana, a gypsy dancer, the flush and the charm of youth. Paul Caseneuve, Harry Southard, Dorothy Drake and Kenneth Casey are other well-known artists who will support Mr. Farnum in this excellent romance, which has been directed by J. Gordon Edwards.

### VARIETY TO-DAY

"A Lady's Name," in which Lewis J. Selznick presents Constance Talmadge, and which Select Pictures will offer at the Variety Theatre to-day, presents a great field for the talents of the ever-popular Constance. "A Lady's Name," adapted from Cyril Harcourt's play of the same name, is a picture with the true American flavor—good, clean, rollicking fun, chock full of pep. Constance is a delightful throughout the whole picture, which offers her a splendid chance to portray her versatility. You are introduced to her as a young and pretty woman novelist. Later she becomes a butler's sweetheart, still later a cook, and finally ends up being engaged to the butler's master.

## MINE RESCUE WORK.

Nanaimo—The "Old Fellows" Hall was the scene on Saturday evening of an interesting social function, the occasion being the presentation of medals and trophies to the winners at the First Aid and Mine Rescue competitions held at Ladysmith on Labor Day.

The presentation of prizes was made by John Thompson, who congratulated the teams on the splendid work done during the past year both in Mine Rescue and First Aid work. Mr. Laird responded on behalf of the Rescue Team, and hoped to see more of the young men in this year for

## OLD-TIME SUPPER.

Port Alberni—The directors of the Alberni Agricultural and Industrial Society, at a meeting held recently, decided to repeat the "old-time supper and dance" which was held in the Agricultural Hall last year immediately following the annual Fair.

## LIONEL TAYLOR ON WENATCHEE FRUIT

Well-Known Horticulturalist  
Speaks on Visit to Famous Valley

Local fruitgrowers who have visited the Wenatchee Valley, and who have personal acquaintance with Lionel Taylor, of Kelowna, who frequently visits here, will be interested in an address Mr. Taylor recently gave to the Glenmore Local of the United Farmers on irrigated fruit lands.

### In Alfalfa

He said in part: Ninety per cent of the Wenatchee orchards are in alfalfa, and the dark green of the trees contrasts greatly with the yellow foliage of the clean cultivated orchards. By next year it is expected that fifty-nine per cent will be in alfalfa. The soil is two and a half to three feet deep. The water supply continues from about April 15 to Oct. 31. The trees, therefore, have ample moisture for the dormant season. Lack of moisture, he considered, seemed to be responsible for many trees dying out in some of the dry spots in this valley.

The largest amount of water used at Wenatchee is 2 1/2 acre feet, and the supply is brought 35 miles. If used continuously, the quantity would amount to 3 acre feet. The flow is by gravity through special galvanized iron pipes made in eight-foot lengths joined by a substance which permits no leaking. Six million feet of this piping has already been sold.

The secret of successful irrigation at Wenatchee is a small stream run continuously, and there is no waste of water whatever. Five or six deep furrows are ploughed between the trees in spring, and the limit length of a furrow for irrigation is 300 feet. There is therefore a small stream with little evaporation, and there is no cultivating.

When an orchard is seeded to alfalfa, eight pounds is allowed to the acre; a space of three or four feet being left clear from the trees. In two or three years the alfalfa becomes a solid mass, and for the first two years it is detrimental to the trees, which suffer. To obviate this the trees are treated through this period, 200 lbs. of nitrate of soda per acre is put on in the fall after the growing season closes.

### Picking Easy

Picking is easy because of open-handed trees, two-thirds of the fruit being picked from the ground. The system of pruning differs from ours, and at four years old heading-back ceases. Cost of working is reduced to a minimum; there is no hoeing. No blights are left in the orchards. Mice and gophers cause little trouble and do not hurt the trees. Colar Rot is causing some amount of trouble, and it is treated by digging round the tree, when the air and sunshine kill the bacteria. Powdery Mildew is controlled in the bud only. Codling Moth, which affected a large area formerly has been controlled successfully by the co-operation of the growers under the guidance in this matter of a chosen director.

Mr. Taylor stated the cost of water at Wenatchee as \$2.00 per acre for maintenance and \$10 per acre for improvements. He described certain large pumping plants and the fine town, with its air of prosperity.

## GROWING DEAF WITH HEAD NOISES? TRY THIS

If you are growing hard of hearing and feel Catarrhal Deafness if you have roaring, rumbling, hissing noises in your ears go to your druggist and get 1 ounce of our "Double Strength" and add to it 1/4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, and the mucus stop dropping into the throat. It is easy to see, costs little and is pleasant to take. Anyone who is threatened with Catarrhal Deafness or who has head noises should give this prescription a trial.

## TO ISSUE BULLETIN ON CASCARA BARK

Shrub Found on Vancouver Island Should be Protected for Drug Trade

The attention of the Commission of Conservation has been called to the increasing difficulty of securing sufficient cascara, or barberry bark, to meet the demand for medicinal purposes. Until recently, practically all of the cascara used on this continent came from the Pacific States, but, as a result of waste and exploitation, this region has been practically exhausted and attention is being turned to British Columbia as a possible source of supply.

Though this species of tree, or shrub, is confined to the valleys in the southern coastal portion of the Province, there is a considerable amount available and, if thoroughly and properly harvested, it could be made the basis of a permanently profitable industry. Though there is a ready market for cascara bark, through lack of knowledge of its value, large quantities of cascara are destroyed in logging and clearing operations. At present, the Japanese seem to monopolize the industry in British Columbia.

One large Canadian drug company alone uses about twenty tons annually for its own use in addition to a large foreign trade. The cascara tree reproduces prolifically by seeds or by sprouts from the stump, if the tree is cut, but the prevailing method of stripping the bark from the standing tree results in the death of the whole tree. The berries are carried by birds and, if protected patches of trees were established, they would serve as distributing centres for natural reproduction. Attempts to grow the tree under cultural condi-

tions have not met with much success. In order that this industry may be developed on a permanently productive basis, the Commission of Conservation has secured the services of Prof. John Dutton of the University of British Columbia, in preparing a bulletin on the subject, which will give a full description of the tree and its habits, methods of collecting its bark, and measures necessary for maintaining the supply.

## TO RELATE STORY OF VICTORIA HARBOR

Leading Port Authorities to Hear Paper by T. C. Sorby

A paper on the port of Victoria, by Thomas C. Sorby, Secretary of the Inner Harbor Association, will be read during the annual convention of the American Association of Port Authorities at Chicago on Thursday, Friday and Saturday. This association represents the port authorities of the whole continent and among the papers to be read are contributions from England as well as ports scattered all over this continent.

The following extracts from a long list of papers to be read will show the far-reaching importance of this gathering: "The Harbor of San Francisco—Its Greatest Asset" by John H. McCallum, Pres. Board of State Harbor Commissioners. "The Port of Toronto, Ont." by E. L. Cousins, Chief Engineer, Harbor Commission. "The Quay and Warehouse versus the Pier System," by Dr. R. S. MacEwen, Director, Bureau of Foreign and Domestic Commerce, Washington.

"The Port of Vancouver and Its Proposed Development" by Lieut. Col. G. H. Kirkpatrick, Chairman, Harbor Commission.

"Mechanical Handling of Cargo and Labor Conditions in Seattle," by Dr. W. T. Christensen, Secretary Port of Seattle. "Drydocks and Ship Repair Plants," by Carroll W. Simon, Philadelphia.

These papers will be fully illustrated by views and maps.

## DIFFICULTIES CHECK INDUSTRIAL WELFARE

Commission in Neighboring State of Washington at Deadlock

Seattle, Sept. 29.—Mrs. W. H. Udall, of Tacoma, secretary of the Industrial Welfare Commission, and Dr. C. H. Marvin, of Seattle, a member of the commission, both resigned at Olympia on Monday afternoon, says a special dispatch to the Seattle Times at the close of a commission session called to consider Secretary Udall's biennial report. Both were appointed on the commission in 1914 by Governor Ernest Lister when welfare work in this state was first legalized. Mrs. Udall resigned as a commissioner two years ago to become secretary. Dr. Marvin wrote his resignation to Governor Louis F. Hart after yesterday's meeting adjourned. Secretary Udall submitted the following statement while the commission was in session: "Since the commission as now constituted is inactive and I can be of no more assistance to the working women of the state, I beg to place my resignation in your hands to-day to take effect not later than October 5, 1920, and urge your acceptance."

Had Nothing to Do. In giving the resolution to the press, notwithstanding Secretary Udall said that since the commission had become a dead letter last June by a two to two vote on adoption of the minimum-wage conference scale of \$18 a week for women and girls employed in factories and had indefinitely postponed a conference of laundry employees wages after deciding to call it, she could find nothing to do but issue an occasional appointment notice and look through the mail, work she said her stenographer could do as well as she could at a considerable saving to the state. To-day's resignations are also a result of Mrs. W. H. Griswold, of Seattle, leaving the board last June when she was replaced by the appointment of Mrs. N. J. Redpath, of Olympia. Six changes have occurred on the welfare commission since April, 1919, with the last two resignations.

In her biennial report, Secretary Udall reviewed the two years' work of the commission, showing collection of \$5,251 in back wages due women and girls for the last two years and a total collection of minimum wages due of \$22,561 since 1914. Governor Louis F. Hart is absent from Olympia, and no statement was available at his office as how the resignations would be regarded. Ordinarily the commission consists of five members appointed by the governor with the state labor commissioner ex-officio chairman.
